## BELIEVE SHALLOW WELLS WILL BE GOOD PRODUCERS

UNUSUAL INTEREST BEING TAKEN IN SHOWING OF TRACY WELLS

An increase in the production of the two wells of the Wisconsin Association on the San Gabriel River a few miles southeast of Cameron combined with the prospects of bringing in a producer at the Quebedeaux location stirred oil circles here to fever heat this week.

Increased gas pressure has caused the Wisconsin shadow wells to flow by heads and many have journeyed to the field to view the wells. The wells have been drilled in for more than two months as shallow producers and have been idle. Operators here who visited the field this week estimate that the wells will make at least 15 barrels a day when pumped.

Considerable damage was done by the high winds late last week in the Tracy field, the derrick of the American Underwriters Company of New York having been blown to the ground. The field crew of the company has re-erected the derrick and with the rig at the location the well is expected to be spudded in sometime within the next few days. This company has also made a location at Maysfield and it was reported here today that construction of the derrick would begin in a few days.

The Tracy-Maysfield Oil & Gas Company well at Tracy has been delayed owing to repairs being made on the derrick. This company has transported two rigs to the Tracy field and will spud in soon on their shallow holdings.

The Longhorn Refining Company officials are trying to secure option on a site for the refinery. All companies offering stock for sale report good progress in placing shares.

The deep test well of the Wisconsin Association on the Bauer tract has been shut down at 900 feet. Gas and oil are bubbling to the surface about the drill.

Ten shallow wells of P. E. Johnson and associates in the Henderson tract in Southwest Tracy are being attached to a power plant fitted out in the center of the field and will soon be pumped. Temporary pipe lines have been laid and storage tanks installed for preserving the oil during the test of the wells.

With the exception of a spurt in leases and the increased showing in the Wisconsin wells there has been little out of the ordinary during the week in Cameron oil circles.

## Meet Saturday to Finance Cotton Classing Station

Considerable effort is being made by the business men of Cameron and the Commercial Club Committee of which T. S. Henderson, Sr., is chairman, to get a representative gathering of farmers and cotton men here Saturday at which time the matter of maintaining a federal cotton classing station will be decided upon.

This matter was given attention two weeks ago in the meeting of the Commercial Club.

The cotton classing station, has increased the trade territory of Cameron, the committee asserts, and its maintenance is necessary to draw increased cotton production to this center.

The farmers will be asked to become active in the support and maintenance of the station. The station will have to be financed by local interests as the federal government has withdrawn its support except to see that a classer is furnished for the office.

An urgent appeal is made to the interests of Cameron and the farmers to attend the meeting Saturday in order to successfully lay the plans for maintaining the station for the coming season.

The Cameron station is one among the few maintained in the State.

## 5 CHILDREN ARE SLAIN IN OKLAHOMA

Elk City, Okla., March 31.—With their heads badly crushed and their throats cut, five small children of Mr. and Mrs. Elmer Cowart were found dead early today in a tent in which they had been making a temporary home three miles south of here. The wife and mother lay beside the children with her throat badly slashed. An axe, razor and butcher knife, all blood-stained, were found in the tent.

Screams of the children attracted a man who was plowing a field nearby, but all the children were dead before he reached the tent and the mother had succeeded in slashing her own throat. The eldest of the children is a boy 10 years old, and the others are a girl, 7, a girl, 5, a boy, 8, and a babygirl, 4 months old. Three older children were found piled on a bed, their heads crushed and their throats cut, while the other two were lying beside the mother on the floor, in the same condition.

Mrs. Cowart was rushed to a hospital here, but physicians hold out but slight hope of her recovery.

She had been slightly despondent since an attack of influenza, her husband said today, but had shown no signs of mental derangement. Cowart arose early this morning and before he went to his work his wife prepared his lunch for him, apparently well and in the best of spirits.

## LULL IN OIL FIELD NEAR ROCKDALE MAY SOON CLOSE

QUIET WEEK WITH LITTLE ACTIVITY—COMPANIES AWAIT MATERIAL

Rockdale, Texas, April 1.—This has been a very quiet week in local oil circles. The town has had many visitors but news of actual work in the field can almost be confined to the statement, "nothing doing."

The Avo Oil & Refining Association has made the location for its first test in the Tracy field on the Widow Gilleland tract. The rig is being placed this week and shipments of casing are enroute.

The Underwriters Oil Company at Tanglewood is drilling at around 1700 feet.

The Texas-Oklahoma people are still shut down, awaiting casing with which to cut off quicksand, as is also the Davidson Creek Company.

The Quebedeaux well on the Bauer tract is still engaged with a fishing job at this writing.

The semi-annual meeting of the Cameron Commercial Club was held last Friday night in the district court room. Election of officers and a board of directors was held. With the exception of changes in the board of directors the old officials were returned to office.

After the meeting which was addressed by Hon. W. G. Gillis and H. L. Knight, secretary and manager of the Nacogdoches chamber of commerce, dinner was served the members on the campus of the court house.

The meeting was one of the most enthusiastic ever held by the Club and was marked by a splendid attendance. The Club plans to do greater things for Cameron in the future.

The past year with the Club has been the most successful in its history many permanent things having been accomplished through its offices.

NOTICE—Wanted to know the whereabouts of W. M. Daugherty, who lived in Cameron in October 1919. Important.—S. M. Burns, Jr., Cameron, Texas.

## TRACY WELLS SHOW SUDDEN SPURT IN PRODUCTION FOLLOWING STRONG RENEWAL OF BIG GAS PRESSURE

### BIG INCREASE IN SCHOLASTIC CENSUS

An increase of 133 in the scholastic population of Cameron is shown by the returns made by W. J. Walker who has just completed the enumeration and filed the returns with County Superintendent, Jim F. Chadwick.

This increase will show approximately what per cent increase will be shown in the population of Cameron and if these figures form a basis of accurate calculation the Federal census will give Cameron a very substantial increase in numbers.

The following figures show the scholastic population of Cameron.

## WILL SPEAK FOR BAILEY SATURDAY

HON. W. W. NELMS OF DALLAS WILL SPEAK AT 1 P. M. SATURDAY

Hon. W. W. Nelms of Dallas will speak in Cameron at one o'clock Saturday in the interest of the candidacy of Joseph Weldon Bailey for governor of Texas.

The appearance of Mr. Nelms here Saturday is through the efforts of the speakers' bureau of the Bailey Campaign and the Milam County Bailey Club of which W. A. Morrison of Cameron is chairman.

Judge C. F. Greenwood was scheduled to speak here last Saturday in the interest of Mr. Bailey but was ill and could not fill the engagement. A substitute speaker was sent but late trains prevented his reaching Cameron.

This will be the first public utterance touching on the present gubernatorial race in Texas to have been made in Cameron. While considerable interest is being taken in the race little

## BAILEY CLUB IS ORGANIZED HERE

SUPPORTERS OF FORMER SENATOR PLAN ACTIVE COUNTY CAMPAIGN

Supporters of former Senator Joseph Weldon Bailey for Governor of Texas have organized a Bailey Club for Milam County.

The Club was formed Saturday, March 27, at a meeting held in the county court house which was to have been addressed by Judge C. F. Greenwood of Dallas in the interest of Mr. Bailey. When the speaker could not fill the engagement a conference was called and an open Bailey meeting followed.

W. A. Morrison, Cameron attorney and Bailey supporter, was elected chairman of the meeting and of the Club. Mr. Morrison called the meeting to order. J. J. Dunham was elected vice-president. Sam Hefley, ardent supporter of the former Senator and who had taken an active interest in organizing the club was chosen chairman of the executive committee.

The club was organized with an initial membership of 225 as given by the chairman, Mr. Morrison.

The club plans an active campaign for the former Senator in Milam county and the immediate future holds a number of speaking dates.

This is the first political club to have been organized in Milam county in connection with the governor's race.

## GO TO CHURCH SUNDAY

Every church bell ought to bring to memory the days when you accompanied your parents to divine worship.

If you have neglected the habit of regular church attendance let this invite you to start again.

You would not care to live in a community without churches. Support them with your gifts and your effort. They make for a better community in which to live. Their growth means a better town in every way.

Every church in this town is worthy of your support. We are all serving one God. Worship Sunday in the one in which you feel most at home.

Make Sunday a memorable day in Cameron. Go to church and renew your fidelity to these greatest of our Christian institutions.

## WISCONSIN CO. SHALLOW WELLS BELIEVED TO INDICATE SITE OF BETTER POOL

Considerable excitement prevailed in Cameron Tuesday and Wednesday over the prospect of the bringing in of the Quebedeaux well on the San Gabriel south of the city and the increased production showings of the Wisconsin wells on the Bauer tract near that place.

Increased gas pressure in two of the shallow wells of the Wisconsin Association in the San Gabriel river bottom has caused the wells to flow by heads and operators and citizens of Cameron who have visited the wells during the past two days believe they will make from 20 to 30 barrels.

The wells have been idle for more than two months and the sudden increase in their production has led oil men to believe that real production will be obtained in the Tracy-Maysfield in much less time than was anticipated.

The wells are located in the southeast extension of the field. About one hundred yards to the north of these wells is the rotary rig of the Wisconsin Association which is idle. The well at the rig is down 900 feet and oil and gas are bubbling to the surface.

Many operators have said that five barrel wells could be obtained at any place in the Tracy Field but now that there has been a sudden increase in the Wisconsin wells it is said that the production will be stronger.

Leases are going to heights never before attained and operators are finding it hard to get in this field with a claim on acreage. It is reported that leases have sold as high as \$200 an acre in the Tracy field during recent weeks.

With the exception of this there has been little development in the field this week.

Considerable damage was done in the Tracy field last week by high winds. The derrick of the American Underwriting Company was blown down but has been reset. The machinery is on the ground for the deep test.

Out at Maysfield where operators are looking for a big strike, the well of the Tracy-Maysfield Oil & Gas Company spudded in near two weeks ago is expected to be resumed today as repairs have been made on the derrick.

P. E. Johnson and associates are completing pumping equipment on ten wells in Tracy.

Development has been subjected to a lull all over the county, little activity being reported from Rockdale.

The Quebedeaux well which showed strong in oil and gas last week is expected to be brought in as soon as obstruction can be removed from the casing. This well is on the banks of the San Gabriel in Tracy field.

has been heard from the actual contestants since the opening gun was fired by Pat Neff.

It is planned that all the candidates will be asked to include Cameron in their itinerary of the state.

## WELFARE MEETING HELD IN TEMPLE NEXT WEEK

The fourth annual child's welfare conference of the Fourth District of Texas Congress of Mothers' and Parent Teachers Association will be held in Temple, April 7, 8, 9 at the First Methodist Church.

The conference will begin at 2 o'clock in the afternoon of Wednesday and will close at Friday noon.

Every Parent Teachers' Association in the county is asked to send delegates. Any member who can attend will be welcome.

The program will be to discuss the problems of child life today. There will be illustrated lectures. Miss Annie Webb Blanton will address the meeting.

## REVIVAL MEETING AT M. E. CHURCH IS BIG SUCCESS

ATTENDANCE OVERFLOWS THE CHURCH.—REV. IRA F. KEY IS PREACHING

One of the most successful revival meetings ever held in Cameron, the meeting now in progress at the Methodist church is being attended by hundreds and it has become necessary to hold services in other churches Sunday night to accommodate the overflow crowds.

The preaching is being done by Rev. Ira F. Key, the pastor of the church. Strong and appealing evangelical sermons specially prepared for this revival have marked the progress of the meeting and attracted an attendance seldom noted at meetings of this kind in Cameron.

Rev. Ira F. Key has been in Cameron only a short time as pastor of the Methodist church but the work has prospered under his leadership. Rev. Mr. Key is a man of fine personality and force of character and these qualities enforced by commanding eloquence as a speaker is reflected in his successful conduct of the meeting.

The church is preparing for a big day Sunday. An appeal is issued for all Cameron to worship Sunday.

The singing at the meeting is being led by Rev. John Adams.

## WILL DISTRIBUTE NEW CARS HERE

DAUGHERTY MOTOR CO. TAKES ON CLEVELAND AND CHANDLER

The Daugherty Motor Company of Cameron has closed a contract to become distributor for the Chandler and the Cleveland cars in this territory.

The closing for this distributing right was made last week when E. A. Flinn visited Dallas for that purpose. The introduction of these popular cars will greatly increase the prestige of this point as an automobile distributing center.

The company now has a Cleveland on display in its salesroom.

The Daugherty Motor Company is the local distributor for the Chevrolet car. A splendid business has been built up on the Chevrolet car and with the addition of the other cars this firm will have a latitude of distribution covering three prices in automobiles.

## CITIZENS OF CISCO SHAVE EACH OTHER DURING BARBER STRIKE

CISCO, TEXAS, March 27.—Cisco can't be bothered by strikes.

When the barbers showed no intention of returning to work Friday and the proprietors showed no inclination to capitulate to the union men's demand for 65c of all earnings, instead of 60 per cent, local business men walked into the shops in pairs, shaved one another, paid the cashier and left.

Until the strike is settled, Chief of Police Wiley C. Hittson will shave and barber W. E. Morris, president of the Chamber of Commerce, and Morris will reciprocate the chief's tonsorial attentions.

Others who have made similar agreements are Stuart Williams, secretary of the Young Men's Business League, and N. F. Payne, exalted ruler of the Elks; T. C. Williams, local business man, and Frank Page, wealthy contractor.

The foregoon pair commanded a shop today and then began their operations on one another. The agreements are verbal, and waive all damages.

## SPIRIT OF '49 IN OIL FIELD RUSH

Southwest Now Presents the Same Melodrama  
of Sudden Wealth that Pioneers Knew In  
Days of the Gold Craze.

The days of the Forty-niners have come again in Louisiana, Oklahoma and almost of all in breezy Texas, says the sun and New York Herald. The gold rush of our grandfathers have given place to the oil rush of today. Instead of prairie schooners these argonauts fare forth in Pullman trains (chronically four to six hours late)—and instead of prospectors on "grub stakes" there are oil drillers at any number of real dollars per day; but the wild, adventurous spirit is the same and the reckless spending of hastily won fortunes and also the fist fights and the gun play!

It is this same adventurous spirit, this recklessness and taking of long chances that attracts so many old campaigners of the A. E. F. to the oil fields. If you are "in right" you may be a pauper today and a millionaire tomorrow. And then again, you may be dead—if some "bad hombre" who has been toying too long with the wood alcohol happens to take a dislike to the shape of your nose. Burk-Waggoner, the newest and toughest of the Texas oil towns, has seen as many as three shooting affairs in an evening. You may, too, if you desire, lose all your oil holdings in one little poker game any evening. Quarter limit isn't popular in that sector.

### Many From the A. E. F.

All this looks good indeed to Corporal Smith and Sergeant Jones, who have been used to gambling with Jerry for tolerably high stakes and who now find bookkeeping on a shiny office stool a little tame. The oil towns are khaki towns, all dressed up in samurais of O. D. issue. Here it's a blue serge suit with a campaign hat,

puttees and field shoes; there an army mackinaw over corduroys, and yonder an aviators' leather coat and goggles perched on the front seat of a rattling Ford. Even the office men are A. E. F. graduates; yonder snappy stenography wears a monogrammed silk shirt, but his breeches are O. D., and he still limps a little from the bit of shrapnel that he stopped in the Argonne.

"These boys are surely getting a good start in Texas," beamed the friendly old chap who showed the writer over Burkburnett, "Texas sent over 80,000, and she wants to do 'em right now that they're back. See those two?" pointing two fellows in half uniform and half civies, rattling along on a new two-ton truck. "They've just bought that and started carrying supplies from Wichita to the field. I started 'em—gave 'em their first load this morning to help the good work along."

### Chicago of the Southwest

Fort Worth, that thriving young burg which calls itself "the Chicago of the Southwest," proved to be an ideal starting point for oil investigators, both for geographical reasons and because a few days spent in Fort Worth inure one to hardships and prepare one for anything.

"Don't expect to get a room in any Fort Worth hotel," some had warned me. "They hang you on a hook down there."

He was about right. You surge into town at midnight on a train that was due at 7:30. You then storm the Westbrook, conceded to be the best hotel. A bored hotel clerk tells you with a yawn that he can't find any trace of your reservation; come

around tomorrow, if you like. Well, that's all right! You have already learned from the Encyclopedia Britannica that Fort Worth has 31 parks and it is a perfectly lovely night.

Eventually, if you know the major or have a letter of introduction from John D. Rockefeller, you and your baggage are established—but not at the Westbrook—in a fairly good room, with running water and electric light, for a mere \$3 a day without bath. This is cheap.

Meals are cheaper than in New York—but nowhere near so good. Quantity and not quality, is the cry of the husky driller. When it comes to buying clothes! My! My! A \$50 suit travels from Dallas, two hours away and accumulates a \$25 raise on the way. A fur coat one could acquire for \$125 on Fifth Avenue bound up to \$500 in the Chicago of the Southwest. On any sort of women's clothes the sky is the limit; for the wives of the oil millionaires must spend their money somehow and what could be sweeter than crepe de chine lingerie at \$15 the garment, gold lace hats at \$40, \$19 silk shirts for hubby and \$1000 suits of pale mauve furniture for the stucco bungalow?

### Pecans at Two for a Nickel

Even apples cost 10c a piece, and pecans—called pe-cawns in the South—are two (2) for a nickel, and the Texan's favorite "five-gallon hat" of pale cream beaver sets him back \$75.

Fort Worth in its present halfway stage between a cattle town and a metropolis is fascinating. One-story shacks lean drunkenly against white marble skyscrapers; battered bicycles sprawl on the curbstone to trip up the oil millionaires as they alight from their shiny new motors, and costly imported cars and rusty, dusty Fords jostle one another along the two main streets. Every seventh person owns an automobile and is always willing to give any of the other six a ride. You can't go a block out of town on foot without the cherry offer of a lift.

And the Westbrook, with "Oil Leases and Drilling Properties" occupying nooks of its lobby, shows the

same mingling of types; ermine capes and tobacco juice; hip boots and Paris hats; prospectors in corduroys and tall crowned beaver hats, figuring the profit on 15,000 barrels a day at \$2.50 a barrel, and immaculate gentlemen in English lounge suits who can advise you about something good in oil stock—and would appreciate a small loan. This, too, is the habits of the "lease hound"—usually a dark, lean mysterious lady, sniffing about desirable properties to buy.

### The Native Texan.

The native Texan is delightful—so simple, kind and friendly, so gallant and hospitable! Lean, tanned, wiry with far seeing gray eyes and aquiline features, he is good looking even with a badger haircut! He is partial to tall leather boots with elaborate leaf and scroll decorations, and to lurid shirts, ties and hatband. He is slow and hesitant in speech, camouflaging opinion under such phrases as "He's somewhere near about right!"

The typical Texas girl wears a noble leather coat, topped by a wool tam-o-shanter of any brilliant hue. Old ladies trot about in tobogganing caps, and there's an occasional Southern dandy in sunbonnet and calico dress; but neither these nor feminine heads swathed in gaudy mufflers nor the most a la Paree costume imaginable in contrast attracts any stares from the courteous Texans.

The Fort Worth chamber of commerce, as usual, has the army and navy in full charge. The ex-C. P. O. quoted me this interesting paragraph from a railroad folder:

"The story of oil in Texas is like a page from the Arabian Nights, in which the wildest dream of wealth come true. For little more than a year it has been in the writing, and it is still far from complete, but in number of people involved and in the amount of wealth realized it has been many times greater and more spectacular than was the romantic gold rush of '49."

"From the Burkburnett, near the extreme northern boundary, straight down through the center of the State and on to the great Tampico oil fields in Mexico, extends a geological

formation known as the Pennsylvania stratum. Here thousands of men and women have grown rich over night, many among this number having visited Texas for the first time a year ago for the sole purpose of enjoying the mild climate and the winter sports."

### An Anticlimax.

The ex-sergeant furnished an anticlimax to this by offering some oil stock, as he had some to give away. Unsuccessful in this generous effort he presented the writer with two stout pamphlets entirely filled with statistics indicating that Fort Worth was first in war, first in peace and first in the hearts of the cattle, grain or oil men.

The editor of the Legionnaire, a flourishing young publication well worth the attention of Legion members in the East, proved a mine of information. He explained that in many cases, even in Texas, the promoters made the millions while the original owners of the property had sold out for a couple of thousands. Contrarywise there were other cases when the farm owner got a goodly sum for his oil rights and the bloated capitalists, having spent \$10,000 or more in sinking a well, found no oil.

Beaumont was the first oil field to be developed in Texas—the Spindle Top properties, now played out, though many people expect them to produce again. It was at Spindle Top that "oil maggots," as they are sometimes malaprop'd, made frantic but unsuccessful efforts to buy up a cemetery where they wanted to dig wells. The only result was a popular widely circulated bit of verse called "Not for Sale." Beaumont is strictly a town of millionaires today, and yet there is only one real hotel, and that as unwilling to take you in as the Westbrook at Fort Worth.

### Tent Hotel at Wichita

And now, all aboard for Wichita Falls—usually referred to briefly at "Wichita." The Denver line takes you there from Fort Worth, and a branch road runs to Burkburnett, the actual field. Hotel accommodations were even scarcer at Wichita than in Fort Worth, incredible though that seemed. It's at Wichita Falls that

the famous "tent hotel" has been doing business. Some enterprising beings bought up a lot of surplus army tents, army cots and blankets. For \$2 and up the shelterless "oil maggots" could rent a cot for a specified number of hours, but he must be out by 8 a. m. to make room for the next fellow.

(To be Continued.)

## Merit That Makes Mileage —In Tires for the Smaller Cars

Such extraordinary competence and carefulness as are characteristic of all Goodyear manufacture likewise characterize Goodyear's building of tires for the smaller cars.

Only very unusual experience and endeavor make possible the high relative value built into the 30x3-, 30x3½-, and 31x4-inch Goodyear Tires in our Plant No. 2, the world's largest factory devoted to these sizes.

In addition to the larger sizes Goodyear builds, a daily production averaging 20,000 tires of these smaller sizes alone makes them easily available, regardless of the big demand, to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes.

If you are one of these owners, go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He carries a stock.

## INTERCHURCH MASS MEETING CAMERON, APRIL 13th

Word has just been received from  
Interchurch headquarters that the  
mass meetings for Milam county have  
been set for Tuesday, April the 13th.  
This meeting is one of over three  
thousand being held in the United  
States about this time. A strong  
team of four minister and one woman  
worker will present a full program.  
This will be along the same line as  
the Pastors' Conference at Dallas  
last February. See notice elsewhere  
in this issue.

Judge and Mrs. John Watson are  
taking steps toward adding and beau-  
tifying their already beautiful and  
comfortable home. Hardwood floors  
will be put down, a rock mantle built  
in the reception room and additional  
window cut.

extended stay at home recuperating  
from flu.

## MAJ. GEO. T. TURNER AGED PIONEER IS DEAD IN CAMERON

LED ACTIVE LIFE AND HAD RE-  
SIDED IN MILAM COUNTY  
SINCE 1886

By Mrs. Jeff T. Kemp.)  
Major George S. Turner, aged 92,  
died Saturday afternoon at the resi-  
dence of his son, Thomas H. Turner,  
in North Cameron, and was buried in  
Oak Hill cemetery Sunday at 3 p. m.,  
Rev. Ira F. Key, pastor of the Metho-  
dist church officiating at the funeral  
services. The family of his son, Mr.  
Arvis B. Turner of Rosebud, were  
present when the end came, but other  
relatives, who had recently visited  
Major Turner in his illness were not  
recalled for the funeral.

Major Turner came to Milam coun-  
ty in 1886 and for his loyal interest  
in the religious and educational af-  
fairs of his community was regarded  
as a splendid citizen.

George Samuel Turner was born  
September 28, 1828 of Scotch-Irish  
parentage in Edgefield District, South  
Carolina, where he spent his boyhood  
and remained until his twenty-eighth  
year. In his young manhood he was  
fond of military pursuits and he be-  
came an officer in the State Guards.  
For excellence in drill work a sword  
was presented to him which he treas-  
ured through life. In 1845 he greatly  
desired to join the Palmetto Guards  
and go to Mexico with the United  
States troops but on account of his  
youth his father objected and he  
obediently remained at home.

In 1856 he moved to Greensboro,  
Alabama, and engaged in farming,  
being for two years overseer on the  
Jones Plantation and later overseer  
for Mr. Warren Kennedy of Kennedy  
Bros., who owned large estates and  
carried on extensive business enter-  
prises. Mr. Turner gained the honor  
and respect of both the owners and  
slaves on these plantations.

On September 28, 1860 he was mar-  
ried to Mrs. Sarah Caroline Mackey,  
a daughter of Squire John Boyd of  
Perry County, Alabama, a widow with  
two small sons, Richard Calhoun  
Mackey and George Goldberry Mack-  
ey, whom Mr. Turner loved as his  
own sons.

A little daughter, born August 16,  
1868, died in their grief the par-  
ents adopted a little orphan boy who  
grew to manhood in their home and  
is now known by their name. The  
two sons who survive their father  
were born in Alabama.

When the South was called to arms  
Mr. Turner enlisted as a private in  
Co. H, 8th Alabama Cavalry, but  
from his knowledge of military affairs  
and for gallantry and bravery he  
soon became Captain of this Company  
and at the cessation of hostilities he  
had achieved the rank of Major in the  
Confederate forces.

At the close of the war he returned  
to his desolated farm on Brush Creek,  
Alabama, where he remained until  
1886 when he removed to a farm near  
Curry, where he lived until he re-  
moved to Cameron.

His latter years were saddened by  
the death of his wife, April 20, 1912  
and during the epidemic of 1917 his  
grandson and namesake, George Tur-  
ner, and his young wife died on the  
same day and in the same week, an-  
other grandson, Luther Turner died  
all victims of that dread disease.

Major Turner is survived by his son  
Thomas H. Turner of Cameron and  
four children; his son, Arvis B. Tur-  
ner of Rosebud and seven children;  
his adopted son, Mr. Wallie W. Turner  
of Maysville, Oklahoma and seven  
children; his stepson, Mr. G. G.  
Mackey of Birmingham Alabama,  
and ten children and the two sons of  
Mr. R. C. Mackey, deceased.

Major Turner became a member of  
the Methodist church in 1860 and lived  
a consistent life for sixty years in  
this faith.

## GOODYEAR NOW OWNS GREAT AVIATION FIELD

With the purchase of the United  
States Naval Air Station at Wingo  
field at Akron, Ohio, the Goodyear  
Tire & Rubber Company obtains pos-  
session of what is probably the larg-  
est privately owned aviation field in  
this country.

Located within two miles of the  
of the company's factory, the new  
field will be used for the expansion of  
aeronautical activities, especially the  
manufacture of large airships for  
passenger and commercial uses.

Tentative plans have been made by  
the company to establish a flying  
school for the training of airship pi-  
lots to anticipate the need of airship

lines in various sections of the coun-  
try.

Wingfoot field willallow the suffi-  
cient facilities for the complete man-  
ufacture of dirigibles and trials after  
completion. It is planned to have a  
dirigible at this field at all times for  
demonstration purposes.

Established by the government two  
years ago, Wingfoot field afforded  
facilities for the training of several  
thousand dirigible pilots and observ-  
ers for kite balloons. The hangar is  
400 feet long, 150 feet wide and 80  
feet high, capable of housing three  
163 feet airships of the type built for  
the United States Navy during the  
war. There are barracks for 1,000  
men and a hydrogen generating plant  
capable of producing 100,000 cubic  
feet of gas daily for the inflation of  
airships.

If the present expectations of the  
company are realized, the purchase of  
this huge aviation field will make  
Akron one of the leadin air ports of  
the country.

## THREE MEN VICTIMS OF ROBBERS IN OIL FIELD

Wichita Fall, March 31.—Twelve  
oil field workers were robbed last  
night in the suburb of Burkburnett  
by three bandits, one of whom recent-  
ly escaped from the Wichita County  
jail.

The highwaymen secluded them-  
selves in the darkness and robbed  
their victims as they passed a vacant

lot. The series of robberies extend-  
ed over several hours, the laborers be-  
ing robbed as they passed toward  
their homes.

Approximately \$200 was taken  
from the oil field workmen. Three  
arrests have been made.

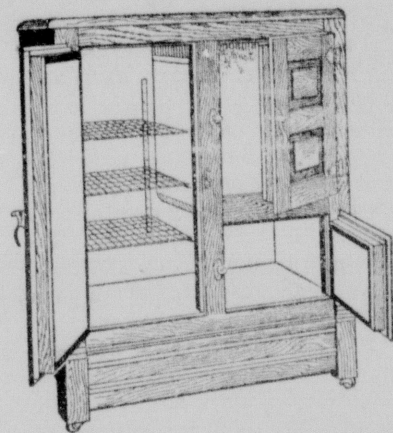

The Ladies of all the churches gave  
away their societies Monday after-  
noon to the Ladies' prayermeetings  
throughout the town.

## FLORENCE OIL COOK STOVES

More Heat  
Less Care

A FLORENCE is a triple bless-  
ing—bakes, cooks and roasts  
and does it easily and at the same  
time. No ashes, no smoke, no fires to  
poke, no dampers to regulate. No  
wicks, no valves. Burns kerosene.

Come in and see how simply  
this oil stove works; how the in-  
tensely hot blue flame means more  
heat and less care. Let us show  
you why the Florence Portable  
Oven with its baker's arch assures  
even baking, tempting pastries and  
well-browned roasts.

## Cameron Society

(By Mrs. W. A. Gillon)  
A ROMANCE

Mr. B. H. McLerran of Cameron, accompanied by his sister, Miss Ola McLerran, met his bride elect, Miss Agnes Edgar of Dumfries, Scotland, Friday the 19th and were married at the Presbyterian manse by Rev. J. P. Robertson.

Mr. McLerran met Miss Edgar while in the air service overseas and their meeting culminated in a true love match. Since his return Mr. McLerran holds a responsible position with the Wayne Oil Tank and Pump Company and has made Dallas his home.

Miss Edgar, brave and true and charming arrived to join her heart's choice on the Antillian of the Lillyland line and within thirty minutes of her arrival in the presence of Mr. McLerran's sister and a few intimate friends, they were made one.

After a short visit with Mr. McLerran's parents the happy couple left for their future home, Dallas. The Herald and other friends of Cameron wish for them all the joys of life and great prosperity.

### ANNOUNCEMENT PARTY

One of the most interesting social events of last week was the announcement dinner given by Mrs. Roy Baskin to announce the marriage of Miss Vace Hardy and Mr. J. C. Tucker of Garland, Texas.

The Killkarees and Sigma Phi's were invited to dinner and all unsuspecting the arrived at Mrs. Baskin's, and not until they entered the dining room did they catch the purport of their gathering together. The color scheme was pink and white and the center piece was a reflector in which rested a great white cake lettered in pink with a blue bird perched high as if to tell the inscription: "Vance and Tuck, April 20th, 1920." The reflector was surrounded with sweet peas and ferns. It was a Buffet luncheon and the buffet was laden with shrimp salad, pineapple salad, potato chips, bread and butter sandwiches, olives, jelly, crackers, hot chocolate with whipped cream and ice cream and cake. The guests marched around and helped their own plates amidst a merry chatter of good wishes and plans for Miss Hardy and the wedding.

When the cake was cut the ring fell to Miss Estelle Coleman for telling that she would be the next bride, the dime to Miss Mary Lake Henderson for wealth, the penny to Miss Lilly Mag Jeter for poverty, and the thimble to Miss Vance Hardy for a life of sewing.

Those present other than the two clubs were: Mesdames Tom Denson, Tom Henderson, Jr., Stanley Bowles, Chas. McDermott, Misses Amy Wade of Belton, Gladys Watson, Grace Gillon and Anna Lou Baskin.

### KEMP-MAY

Fifty or more people of Cameron went to Rosbud Sunday afternoon to witness the marriage of Miss Irine Kemp and Mr. Harry Cromwell May. The wedding took place at 5 o'clock at the M. E. Church, with Brother Bell officiating.

The church was beautiful and resplendent in Easter lilies, pink rose and ferns.

Just before the arrival of the bridal party, with Mrs. Claud White at the piano and Miss Vera Warrick with the violin, Mrs. Alex Triggs sang "Because." Immediately after the song a company of voices rose and sang the Bridal Chorus and while this was being sung the bridal party entered.

Four ushers, Mr. Joe Denson as best man and Miss Rosa Kemp were the attendants. The bride came in on the arm of her brother. She was handsomely gowned in a blue coat suit, with accessories to match, carrying a gorgeous bouquet of Easter lilies and lilies of the valley. The maid of honor, Miss Rosa Kemp, was dressed in a beautiful blue afeta dress with large picture hat, carrying Easter lilies.

After the ceremony the bridal party repaired to the home of her parents and were served to punch.

Mr. and Mrs. May departed for a two weeks tour, after which they will make their home in Cameron. Mr. May being established with the Carey Lumber Company.

The Herald and the people of Cameron are happy to have this happy couple remain and establish their home in Cameron.

Some of those who went up to witness the marriage were: Mr. and Mrs. Jeff Kemp, Mrs. Ella Hooks, Mrs. Burns and son, Billy, Mr. and Mrs. Ralph Head, Miss Delphia Scott, Mrs. Shade Denson, Mr. Simmie Burns, Jr., Miss Mary Lake Henderson, Miss Vance Hardy, Miss Clara Thomas, Elbert Hood and Tom Law.

Mr. and Mrs. Oscar Kidd and children.

### THE PRISCILLA CLUB

The Priscilla Club met with Mrs. Henry Hefley on last Thursday afternoon at her home on Hefley Heights. In addition to the six members present special guests were Mrs. J. L. Clinton, Stanley Bowles of Dallas, Tom Henderson Sr., Tom Henderson, Jr., and Miss Mary McLane.

The usual needle work, conversation was the diversion of the afternoon.

Assisted by the little daughter of the home Mrs. Hefley served a delicious salad course of tumie salad, pimiento salad, fig pickle sandwiches and pineapple ice.

### BRIDGE CLUB

Mrs. U. S. Hearrell was the charming hostess to the Bridge Club last Friday at her lovely new home on Hefley Heights.

As is always Mrs. Hearrell's custom, her parties are second to none, but beautiful in every detail. On this occasion her reception hall and dining room were resplendent in pink carnations. The living room with baskets of sweet peas. The mantle was banked with the favors for the games—rabbits, Easter baskets, little chickens, etc.

Master Giles Avriett, dressed in a white Oliver Twist suit passed the score cards, which were in pink carnation design. The tally pads also were stamped in pink carnations. There were three tables playing and as each won a game they went to the mantle and selected their own favor.

At the conclusion of a number of interesting games it was found that Miss Aetna Smith had won high score and was given a gorgeous bunch of pink carnations, and Mrs. Fritz Fahrendorf won high score among the guests and was given a box of candy.

Assisted by Mrs. Hearrell's charming daughter a two course luncheon was served, consisting of shrimp salad, stuffed tomatoes, olives, lettuce sandwiches, fresh strawberries, Angel Food cake.

Guests other than club members were: Mesdames T. S. Henderson, Jr., Roy Epperson, Cottle, Fritz Fahrendorf and Miss Mary Lake Henderson.

The next meeting will be with Mrs. Tiff Moore. The ladies were profuse in their thanks to Mrs. Hearrell for the delightful afternoon's pleasure and not until the shadows begun to lengthen did they take their departure.

### AFTERNOON PARTY

Mrs. Charles McDermott gave a "Spend-the-Afternoon-Party" Monday in honor of Mrs. Stanley Bowles of Dallas. The guests were asked to bring their sewing. Those who found it convenient to accept the invitation were: Mesdames Stanley Bowles, Roy Baskin, Giles Averiett, Simmie Burns, Jr., and Misses Vance Hardy, Lillie Mag Jeter, Ruth Henderson, and Clara Thomas. With so many social events just past, so many occurring each day, and others to come, there was an interesting season of conversation.

Just before sewing the little daughter of the home brought in a little wagon full of Easter rabbits and each guest was presented with one. Mrs. McDermott then served a salad and ice course, consisting of chicken salad, olives, crackers, bread and butter sandwiches and orange ice. Each plate contained a favor of a bunch of sweet peas with a large bunch to Mrs. Stanley Bowles, the honor guest.

## LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or  
callus off with fingers

Don't suffer! A tiny bottle of  
Freezone costs but a few cents at any  
drug store. Apply a few drops on  
the corns, calluses and "hard skin"  
on bottom of feet, then lift them off.

When Freezone removes corns from  
the toes or calluses from the bottom  
of feet, the skin beneath is left pink  
and healthy and never sore, tender or  
irritated.

### You Do More Work,

You are more ambitious and you get more  
enjoyment out of everything when your  
blood is in good condition. Impurities in  
the blood have a very depressing effect on  
the system, causing weakness, laziness,  
nervousness and sickness.

GROVE'S TASTELESS Chill TONIC  
restores Energy and Vitality by Purifying  
and Enriching the Blood. When you feel  
its strengthening, invigorating effect, see  
how it brings color to the cheeks and how  
it improves the appetite, you will then  
appreciate its true tonic value.

GROVE'S TASTELESS Chill TONIC  
is not a patent medicine, it is simply  
IRON and QUININE suspended in Syrup.  
So pleasant even children like it. The  
blood needs Quinine to Purify it and IRON  
to Enrich it. These reliable tonic prop-  
erties never fail to drive out impurities in  
the blood.

The Strength-Creating Power of GROVE'S  
TASTELESS Chill TONIC has made it  
the favorite tonic in thousands of homes.  
More than thirty-five years ago, folks  
would ride a long distance to get GROVE'S  
TASTELESS Chill TONIC when a  
member of their family had Malaria or  
needed a body-building, strength-giving  
tonic. The formula is just the same to-  
day, and you can get it from any drug  
store. 60c per bottle.

See Batte's Store for Cane Seed be-  
fore buying elsewhere.

## Safe Blowers In Motor Car Kills woman; Speed On

Chicago, March 21—Safe blowers  
riding at top speed in a motor car,  
struck and killed Mrs. Lottie Strane,  
who was crossing the street. Her  
body was thrown high in the air.  
The death car sped on, its occupants  
cursing the woman for getting in the  
way. The conductor of a street car  
who witnessed the murder jumped to  
the street and fired several shots at  
the rapidly disappearing automobile.  
The police were notified and rifle  
brigades were sent out to tour the  
district. One of these parties came up  
on the death car, standing in front  
of a garage. It contained three men.

As soon as the police came in  
sight, the driver of the car started his  
machine, while his companions open-  
ed fire on the officers. Twenty shots  
were fired by the police, but the green  
car and its occupants escaped. The  
car had been stolen March 8. Later  
it was found abandoned under the ele-  
vated railway. Seventeen bullets had  
struck it, smashing the windshield,  
ripping the side curtains and punc-  
turing the body, but there were no  
evidence that any of the bandits had  
been wounded.

Mrs. Strane was 28 years old. Her  
skull was fractured and practically all  
her bones were broken when the  
death car struck her.

NEGRO IS TRIED  
AND HANGED 14  
HOURS AFTER CRIMESAN AUGUSTINE GRAND JURY  
TAKES QUICK ACTION IN  
MURDER CASE

San Augustine, Texas, March 23.—John Hood Price, a negro was legally hanged on the public square here, fourteen hours after his conviction for the murder of John Kennedy, a farmer.

Price was tried at a special court session at 9 o'clock last night, the grand jury having convened especially in the evening to return an indictment. Price maintains he did not commit the murder.

Price was captured late yesterday and placed in jail here at 4:30 p. m. A special grand jury indicted him on a charge of murder; a jury was immediately sworn in and court held last night by District Judge T. J. Adams of Orange. The negro was found guilty and sentenced to hang.

## Farmer Slain at Home

Kennedy was shot and killed last Thursday night at his home three miles northeast of this city. Two charges from a shotgun were fired into his body from a window, as he sat reading a paper. Kennedy lived alone, and it was not until the next morning that his negro cook discovered his body.

It was declared that the negro and Kennedy had a dispute the day before the shooting and search immediately was instituted for Price. A deputy sheriff caught him at Alto and officers brought him to the jail here.

Considerable feeling was evident in the crowd that quickly gathered at the jail, but any likelihood of violence

was averted when a brother of Kennedy asked that justice be permitted to take its course as speedy as possible.

## Sentenced at Once

Judge Adams was holding court at Hemphill and he was at once notified. He came here by automobile, court was immediately convened, a grand jury impaneled, and his indictment and trial followed. When the verdict of guilty was returned, all rights of the prisoner were waived and he was sentenced to death.

Early today work on a scaffold on the public square was started, and crowds began to gather long before 11 o'clock, the hour officially set for the execution. There was no demonstration on the part of those who watched the death device go up.

Kennedy was 41 years old and was

well known throughout this section of East Texas.

# OUR FIRST GREAT Anniversary Sale

## Opening Saturday, March 27th

Just one year ago today we opened our doors for business in your community. Having decided after careful survey of the situation that a first-class store conducted along legitimate lines would meet the approval of the good people of Milam county. Our judgment has been vindicated, and we must say that we are more than gratified by the successful showing we have made the first year. We fully realize that the great success is due to the liberal patronage you have accorded us, and we herewith wish to extend our sincere and heartfelt appreciation for same and assure you that we will try to deserve a continuance of same. In order to show more fully our appreciation we have decided to commemorate the event of our beginning the SECOND YEAR'S business in the City of Cameron with a Great ANNIVERSARY SALE for the benefit of our friends and customers.

### O. C. STEWART, WELL KNOWN BUSINESS MAN DIED TODAY

FUNERAL SERVICES TO BE CONDUCTED AT RESIDENCE SATURDAY AT 3 P. M.

McKinney Courier Gazette.)

O. C. Stewart, aged 47 years and 9 months, died at his late residence 301 North College street, this morning at 10:45 following a brief illness. The deceased, however, had been in failing health for a number of years and it was for that reason that he retired from business in McKinney a year ago last January.

Funeral services will be conducted at the residence Saturday afternoon at 3 o'clock by Rev. W. D. Thompson, presiding elder of the McKinney District, Methodist, Episcopal Church, South, Rev. J. Sam Barcus, pastor of the First Methodist church and Dr. Virgil W. Wallace, pastor of the First Christian church. Burial will follow in Pecan Grove cemetery.

O. C. Stewart was born June 29,

1872 at Durango, Falls County, Texas, where he grew to young manhood. Later he went to Temple and was associated with his brother-in-law, S. W. Cheeves, a member of the Cheeves Bros. & Co. firm that owned a string of large stores in Texas. Showing good business qualifications the young man was encouraged and later he came to McKinney, this being eighteen years ago. He bought an interest in the Cheeves Bros. & Co. store in McKinney and was made manager of the business. He successfully managed this business until January a year ago at which time he sold his interest to Ed H. Pettus and retired for a much needed rest. He had rested up for a year and of recent date had just launched a new business enterprise and had under course of construction some residence property in McKinney and this work was receiving his attention until the early part of the week. He had been in bed only since Tuesday.

March 8th, 1908 he was married to Miss Annie Taylor, a daughter of the late Captain W. H. Taylor who served Collin county as treasurer for twelve years and was one of the county's best known and most highly respected citizens. And during the past few years, in the days of Mr. Stewart's declining health his devoted wife has bravely stood up and in the face of

discouraging advice as to her husband's health she has appeared to him as optimistic and cheerful as possible, even though her smiles were from behind a veil of tears and her loving words from a breaking heart. She has furnished a rare example of love and devotion to a husband.

The deceased is survived by his aged parents, Mr. and Mrs. F. D. Stewart of Durango, Texas; four sisters Mrs. S. W. Cheeves, Cameron; Mrs. C. N. Green, Cameron; Mrs. W. J. Woods, Cameron; Mrs. Ida Jackson, Durango; Frank Stewart, the youngest brother of Durango. Early in life he united with the Methodist church at Durango. He was a member of the McKinney Lodge B. P. O. Elks.

O. C. Stewart was a successful merchant. He was frank and open in all his dealings and in his statements regarding all things. He had the happy faculty of making friends in a quiet way and he was always true to every trust. His store, at the time he sold it, was the oldest dry goods store in the county and he therefore became well known all over Collin county and had many friends among the farmers and stockmen as well as here in McKinney. These many friends are deeply grieved to hear of his death and extend condolence to the heartbroken wife and other members of the family.

#### A CAMERON MAN'S EXPERIENCE

Can you doubt the evidence of this Cameron citizen? You can verify Cameron endorsement. Read this:

S. E. Pitts, merchant, Nolan Ave., Cameron says: "About five years ago my kidneys were giving me a lot of trouble. My back seemed to ache all the time and the muscles were sore and lame. I was sore across my kidneys and felt just played out. I picked up a paper and read about Doan's Kidney Pills and began taking them. After using about two boxes of Doan's, all those disagreeable conditions left me. I advise anyone to try Doan's Kidney Pills who has any kind of kidney complaint."

#### SHERIFF'S NOTICE OF ELECTION

THE STATE OF TEXAS,  
County of Milam.

Notice is hereby given that an election be held on the 24th day of April A. D. 1920, at Val Verde School House in Common School District No. 1 of Milam County, Texas, as established by order of the Commissioners' Court of Milam County, Texas, of date the day of \_\_\_\_\_, 19\_\_\_\_\_.

which is of record in Book \_\_\_\_\_, page \_\_\_\_\_ of the minutes of the Commissioners' Court of Milam County, Texas, to determine whether or not a tax of and at the rate of 20c on the \$100 valuation of taxable property in said District shall be raised to \$50c on the \$100 valuation for the purpose of supplementing State school funds apportioned of said District and to determine whether the Commissioners' Court shall be authorized to annually levy, assess and collect said tax for school purposes.

I. E. Whittington has been appointed presiding officer of said election and he shall select two judges and two clerks to assist him in holding the same and he shall within five days after said election has been held make due return thereof to the Commissioners' Court of this County as is required by law for holding a general election.

All persons who are legally qualified voters of this State and County and who are residents property taxpayers in said district shall be entitled to vote at said election, and all voters favoring the increase of school tax shall have written or printed on their ballots the words:

"For increase of school tax."

And those opposing shall have written or printed on their ballots the words:

"Against increase of school tax."

Said election was ordered by the County Judge of this County by order dated on the 31st day of March A. D. 1920, and this notice is given in pursuance of said order.

Dated the 31st day of March A. D. 1920.

L. L. BLAYLOCK,  
Sheriff, Milam County, Texas.

#### PRESBYTERIAN CHURCH

Remember that next Sunday is Sabbath Sunday, April 4th. The morning service will be in harmony with the day. There will be quite a company to unite with the church at the morning service. Those desiring to join who have not been before the session should meet us Sunday morning at 10:45.

On account of the revival at the Methodist church there will be no night service at our church.

H. R. MacFADYEN, Pastor

Miss Grace Gillon came in last Thursday and spent the week end with her mother, Mrs. W. A. Gillon.

Mr. Jan McMurray of Santa Anna spent the week end in the home of Mr. W. A. Gillon.

# AMERICAN INDUSTRY

YOU owe it to yourself and to AMERICAN INDUSTRY to know about OIL Investments; not merely one or two, but 20 or 30, enough so that you can have a Law of Average to base an Opinion on.

## \$23,000.00

We have all dreamed of the time when, "our ship comes in" and YOUR ship may be an OIL WELL. Your chances are just as great and greater than were the chances of the men who bought stock in the companies which developed the fields already known of.

The "Mother Pool" is still hidden in the earth and we are sparing neither time, money or experience locating this Pool of Wealth for the stockholders of this company.

The Right attitude for individuals to take is this-----

## You Know Tracy is a Paying Proposition

Suppose we have missed our bet, on the Deep Test, and strike a "dry hole," well we have our rigs and derricks and equipment and we intend to stick to the job till it is a paying well. We are in business to stay, and have not started something we cannot finish. We will finish it and finish it with a paying well.

Among the oil companies which have been organized a great many have paid handsomely. For instance--- in the Hog Creek Company, for every \$100.00 invested it returned

## \$23,000.00

STOP ————— THINK ————— ACT ————— NOW

Is the time to buy stock in the Tracy-Maysfield Oil & Gas Company.

## BECAUSE

We have 3800 acres, and when this field comes in, there is going to be scores of small concerns coming who will lease 5, 10, 15 and maybe 20 acres, because prices will be so high, that will be all they can get to drill a well on. YOU FOLKS who have waited for the wells to come in, will eagerly jump at the chance to invest in these small companies, just as a drowning man jumps at a straw, when your profit will not be nearly as great as it would be to invest in our company now, who have 3800 acres and are first in the field. This is the history of Desdemona, Ranger, Burkburnett and many others.

INVESTIGATE ---- it is free to everyone. You should investigate the officials of the Oil Company in which you would invest. We will consider that you are exercising nothing more than a good business policy if you investigate our officials. You are missing a big opportunity right at hand----NOW.

## GREAT QUANTITIES OF AMMUNITION FOUND IN GERMANY

### ALLIES SEE ATTEMPT TO VIOLATE TERMS OF THE TREATY OF VERSAILLES

Paris, March 31.—The allies have not yet given the Germans permission to send troops in the Ruhr district. The French continue to insist that military occupation of the neutral zone by Germans would further endanger execution of the peace treaty, declaring that there would be no way of getting them out again except by force.

Paris, March 31.—Great quantities of arms have been discovered in Germany by the allied officers charged with supervising execution of the peace treaty, according to advices received here. Three thousand five hundred three-inch field guns have been found by the inter-allied commission in the vicinity of Berlin alone

and altogether 12,000 of these guns have thus far been discovered throughout Germany, as well as 6000 airplanes intact.

According to the terms of the treaty of Versailles, the German army should now have only 204 three-inch guns and no airplanes whatsoever.

These discoveries and other information in possession of the French authorities have caused considerable skepticism here as for the reason given for the request of the Berling government that it be permitted to send troops into the neutral and occupied zones.

This discovery by allied officers, together with other information in possession of the French authorities is considered by the French officials to indicate that Germany is endeavoring to avoid executing the terms of the treaty.

The discovery is commented upon in connection with reports that a republic has been proclaimed in the Ruhr region. The French, it is indicated, are inclined to believe that occupation of the Ruhr district by German troops or the alleged separate government would have as an ultimate effect, if not as a direct object delay or evasion in executing the

treaty terms.

Particular significance is attached here to the discovery of so many field guns in such a small part of Germany in view of the fact that the Germans, replying to the demands of the commission of control to which Germany's excess war material and munitions should have been delivered March 19, declared it was immaterial whether the munitions were delivered to the allies or destroyed and they were destroying them.

The allied commission had no knowledge of any such destruction, according to Premier Millerand's declaration in the chamber of deputies yesterday, a demand was made for a list of the munition destructions, but it was tardily furnished that it could not be verified before the end of the time limit.

Germany's armed forces, the peace treaty says, should be reduced to 200,000 men by April 10, and Premier Millerand pointed out that no reductions whatever had been made thus far.

It is considered impossible here that anything of note will be done in that direction in the 13 days remaining of the time limit.

Germany began delivering coal to

France under provisions of the treaty at the rate of 300,000 tons a month. The reparations commission fixed the total amount to be delivered at 10,600,000 tons on the basis of last December's production. Since that decision was reached the deliveries have fallen to 150,000 tons.

Washington, March 26.—President Wilson will send the Treaty of Versailles back to the Senate again at a favorable opportunity. This was learned today from Administration officials close to the President.

For the present the President is content to let this treaty rest without action and will take no steps to patch up a temporary peace, it was asserted.

The President holds the belief that public opinion will bring the Senate to final ratification of the treaty, and he is waiting the formulation of such opinion.

Resolutions declaring a separate peace with Germany will not get far, the President believes. He does not think Congress will be able to agree on any such resolution, and if one should be passed he will use his power of disapproval.

If necessary, the President is determined to allow the question of peace to go along as it is now going until after the Presidential campaign, his friends say.

## MILANO STORE IS BURGLARIZED MONDAY

BETWEEN \$500 AND \$600 WORTH  
OF MERCHANDISE STOLEN  
FROM NEWTON STORE

(Special to The Herald.)  
Milano, Texas, March 30.—J. B. Newton & Sons general merchandise store has been burglarized two nights the very same way, Sunday night, 29th and Monday night, 30th. Both times the burglar knocked out a panel of the side door and went through the aperture.

The haul on Sunday night was supposed to be small but considerable was stolen the second time. Only three pairs of shoes were actually missed yesterday morning, but this morning they miss 4 suit cases, 12 suits of Men's Clothing and a quantity of silk goods—in all \$500 or \$600 worth of goods.

No clue as to the burglars has yet been secured but the big haul of 4 cases and contents are hoped to be located and may be recovered.

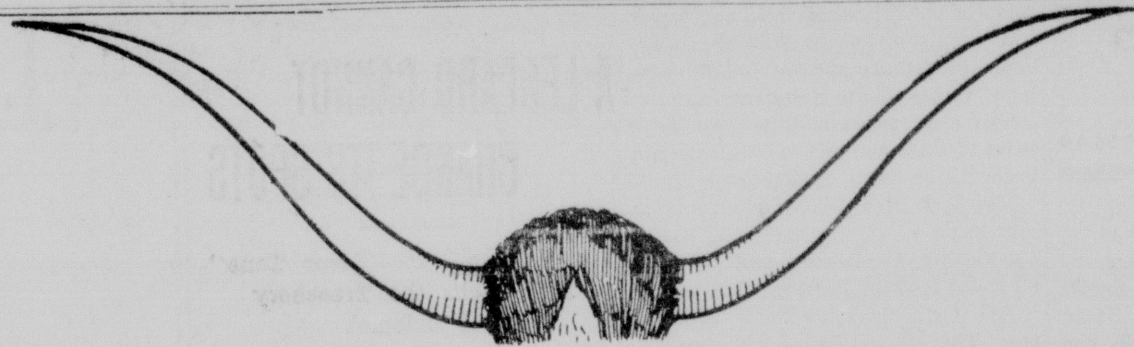

# LONGHORN REFINERY DIVIDENDS

## WILL MAKE YOU RICH

**Opportunity Never Passes without bringing Regrets. Will you answer the roll call of our shareholders when dividend time comes? Think for a minute what it means to you. A few hundred or a few dollars put in at the start of this great industry will pour into your treasury a steady stream of profits for a lifetime. Millionaires are going to be made in Milam County Oil. Independent fortunes will be made from Refinery Dividends.**

Industry  
Come with us NOW

Capital \$250,000  
Shares \$25.00  
BIG  
DIVIDENDS

Stockholders in Refineries GET BIG DIVIDENDS WITHOUT THE USUAL RISK taken by stockholders in speculative projects. It is a sure thing. Commercial reports and statistics show that Refineries not only pay enormous dividends, but, what is more important, they are PERMANENT DIVIDEND PAYERS.

NOTE THIS. The United States Committee on Public Lands brought out the fact, as reported in the Congressional Record that on 75,000,000 barrels of oil produced in Oklahoma

NET PROFITS of \$107,800.00 were made. Of this the land owner made \$5,450,000 the broker made \$2,400,000 company made \$10,700.00 and the refinery company that bought and refined the oil made \$86,250,000.

Please note that the big profit went to the company buying and refining the oil.

The Southern Refinery at Yale, Oklahoma, paid for itself in sixty days.

The Dixie Company at San Antonio, Texas, a new company, paid the first

eight months, 165 per cent on its capital.

The Ponca City Refinery, Ponca City, Oklahoma, in four years, paid 400 per cent in dividends and sold out netting its stockholders \$2,350 for each \$100 invested.

And there are many other such examples we could cite to show the magnitude of the possibilities for rich dividends to the small as well as large investors.

Such opportunities come but few times in a lifetime. The ground

floor means everything. If you wait you can't get in. Once a company is operating there is no stock for sale and consequently no opportunity to invest.

The Longhorn Refining Company understands he refining business and knows what it will pay.

Oil is flowing from wells in Tracy. Gushers will soon be brought in if geological and structural facts may be relied upon. This crude oil must be refined. Cameron is the logical point.

Already pipe lines are being surveyed out. This will be the terminal for the wealth that is soon to pour in from that field. Millionaires are going to be made in Milam county oil. Independent fortunes are going to be made from refinery dividends.

This is the clarion call of opportunity to you.

There is a vast difference between a speculative project and an investment. This is an investment, not a speculation. Get in with opportunity's first rap.

### What This Refinery Means

The following tabulation of figures are based on a 2000 barrel daily capacity. Forty-two gallons per barrel, car load lots f. o. b. Refinery.

30 per cent gasoline, or 25,200 gallons at 18 cents per gallon equals \$4,536 daily.

15 per cent Pale Oil, or 12,600 gallons at 10½ cents per gallon, equals \$1890 daily.

20 per cent kerosene, or 16,800 gallons at 7½ cents per gallon equals \$1260 daily.

10 per cent gas-oils or 8400 gallons at 5 cents per gallon, equals \$420 daily.

20 per cent grease stock, 16,800 gallons at 16 cents per gallon, equals \$1728 daily.

Gross daily income \$9,834.

Less cost of crude oil and operating expenses.

2000 barrels crude oil at \$2.40 per barrel.....\$4,800.00

Fuel, Labor and Water per day..... 250.00

Insurance and Depreciation..... 50.00

Overhead and Miscellaneous..... 50.00

Total Daily Expenses.....\$5,150.00

ACTUAL TOTAL NET DAILY PROFIT \$4,684.00

Counting 360 working days in a year would give our shareholders an annual profit of \$1,686,240.00.

Fifty per cent of the earnings of this company shall be paid to the shareholders of said company at least once a year. Dividends shall be paid quarterly.

### Consider These Facts---

- That this is the most profitable end of the oil business.
- That this is no speculation but an investment.
- That the demand for high grade gasoline is steadily increasing.
- That this is your first opportunity and probably the last.
- That this means a life-time income.
- That our Capital Stock is only \$250,000 which means bigger gasoline men.
- That it only takes about ninety days to construct a plant which means quick returns on your investment.
- That this plant when running at capacity should pay from 150 to 300 per cent, per year.
- That this means a big pay roll for Cameron and Milam County.
- That this will bring 100 to 150 working men here.
- That this means from 500 to 750 people.
- That this means a monthly pay roll of from \$3000 to \$6000 per month.
- That this means from \$36,000 to \$72,000 per year to the town where this refinery shall be built.
- That this means the opening and maximum development of the Tracy Oil Field, the greatest shallow oil field in the State of Texas.
- That this means an increase in the population of Cameron and Milam County from 500 to 1000 people.
- That this will cause a tremendous increase in real estate values in Cameron and Milam county.
- That this is a home company, composed of home men.
- That this will give the people of Cameron and Milam County and adjoining counties a higher grade of gasoline delivered at your door.
- That if the Oil Companies that are at present drilling in Milam county strike a large flow of gas this company will erect a Casing Head Plant in connection with the Refinery.

### INTERCHURCH MASS MEETING

According to latest information our County Mass Meeting will probably be held on Tuesday, April 13, at Cameron. Co-operation is the key word of the Movement and we are having to practice this in arranging for our meetings, for we are in a series and there will be held in the state between the 6th and the 16th of April some one hundred and twenty of these meetings.

There are at present 31 Protestant Denominations and one hundred and eighty-two different Boards or Committees that have to do with the larger work of our churches in the Movement. This is a most notable thing in view of our past church history.

Our County Mass Meeting, as it is called, will convene at 10:30, and will be an all-day conference. Time will be given between 12:30 and 3:00 for lunch and for Denominational Rallies as the churches may care to hold them. There will be a special conference for the young people of our churches between 4 and 7:30. The Conference will close with an important stereopticon lecture in which some of the finest of the Interchurch slides will be used to show the world wide opportunity and task of the combined forces of the Kingdom.

The Conference will be held by a team of four men and one woman, with probably an extra worker or two.

Mr. J. T. Kemp has been asked to lead in the work of getting the people out for the Conference and you will no doubt soon be hearing from him.

Appoint your Interchurch Committee. This to consist of, the pastor, one man and one woman from each church. This is important, and it is important that we have their names at once.

Make your plans to take in all this Conference. Look for notices in the papers next week.

### MILANO NEWS

By Chas. Howes.

Mr. W. H. Todd, an old resident of Milam county, who had resided in Gause about 25 years, but for the last 2 years in Milano, died Saturday morning after a lingering illness and was buried in Milano cemetery.

Mr. Folmar of Gause has been appointed Dipping Inspector in place of R. A. Hairston, resigned. He is expected to move to Milano shortly.

Rev. Shelby of Baylor University preached at the Baptist church Sunday, the 28th inst.

Milano is getting to have a large Mexican population. They are found to be about like other people, some good and some bad.

The Odd Fellows of San Gabriel gave a big banquet last week. Several car loads of men of Cameron and from Taylor met there to assist in giving degrees to some of the candidates.

## A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone"  
Man, Tells the Treachery  
of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

"It is folly," said Benjamin Franklin, "to lay out money in the purchase of repentance."

This is simply another way of saying that when a wise man buys tires, he buys KELLY'S.

One of the objectives of the Interchurch World Movement has been a great evangelistic campaign in all the co-operating churches to be concluded with a gracious ingathering on Easter Sunday. In line with this have been the service recently held in the Presbyterian Church and the services now being held in the Methodist church. Between twenty and twenty-five members are to be publicly welcomed at the Presbyterian church at the morning service. No doubt a large company will also be received at the Methodist church, as a result of the revival there, as well as in other churches. The probability is that there will be the greatest ingathering in the Protestant churches of the land that has ever been known for any day.

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

## MILAM LEADING ALL COUNTIES IN TICK ERADICATION

AT TOP OF LIST AMONG QUARANTINE COUNTIES OF TEXAS

Summary of the work done in Tick Eradication in Milam County, Texas, for the week ending 27th instant:

There were over 8,000 head of cattle dipped with 11.2 per of these showing ticks. Half of the vats in the county were in operation this week and but few cattle are now in the county but what are being dipped under supervision of the county inspectors.

Advices from the head offices of the Tick Eradication work in Fort Worth state that "Milam County is leading the list of quarantined counties in this State at the present time in the systematic tick eradication campaign. We feel that with getting this early start that results at the end of the season will be completely satisfactory to all concerned." The work is moving along satisfactorily to all concerned and with this kind of co-operation the county will go above the Federal Quarantine this fall. Nothing short of disaster can not stop it.

There are still some communities which have not their vats in operation. In view of the fact that this county will go above the quarantine it appears to us that it would be sensible thing for these few communities to get together and co-operate in the work rather than to wait until too late and then to be left under local quarantine for another year or until they clean out the tick.

Again it may be mentioned that some cattle are being moved into the county without permit. The law states plainly that cattle cannot be moved from any county into this without a permit, neither can cattle be moved from premises to premises without inspection and permit. This is all necessary if we are to eradicate ticks in the least possible time. Cattle carrying ticks cannot be moved until they are free of ticks except to and from the dipping vats.

We regret very much to state that any party violating any of the quarantine laws or the dipping laws will be prosecuted. But this is necessary in order to protect the work and be able to get through with the work this season. Each and every case will be handed the County Attorney for action. You are urged to co-operate and there facilitate the eradication of the tick from the county this season.

## CARD OF THANKS

We wish to thank those who were so kind to us during the illness and death of our beloved father and grand father,

## WEEKLY FINANCIAL REPORT

In reviewing the export and import operations of the United States for year 1919, it is rather interesting to note that the exports of the United States show large gains to every Grand Division except North America. The falling off of our exports in this connection occurred entirely in the movement of Canada. Our exports to Europe in 1919 showed gains of 34 per cent over 1918; to Asia 57.9 per cent; to South America, 41.2 per cent, but to North America we show a decrease of over \$150,000,000 from the previous year.

A statement of the National City Bank of New York in this connection points out that a large part of Canadian purchases in 1919 were of raw materials for which there was no demand in 1919. In 1918 we exported wheat to Canada, in considerable quantities, a country that is, itself a large producer and exporter of the grain. Such imports were, of course, for the purpose of re-export for the use of either Canadian or allied troops. This same influence naturally increased the Canadian demand during the war for quite a number of articles. If we eliminate the falling

off in the Canadian demand for munitions of war an analysis of our exports to Canada shows that there are hundreds of articles required by the Canadian domestic market, the demand for which increased in 1919.

Our exports experienced the material increase, in the case of cotton cloths, of over \$2,500,000, and in the case of unbleached cloth of nearly \$1,000,000 with similar increases in the case of all cotton goods.

Among the other classes of merchandise sent to Canada in increased volume in 1919 over the previous year were automobiles, dyestuffs, tanning material, cotton knit goods, preserved fruits, furs, sewing machines, typewriters, sole leather, boots and shoes, lard, turpentine and many classes of wearing apparel.

## FREIGHT LEAST H. C. L. EXPENSE

Director General Hines Says Rail-  
road Transportation Costs  
Are Lowest in History.

### NOT CAUSE OF HIGH PRICES.

Freight Advances Compared With Rise  
in Value of Goods—Transportation  
Cheapest Thing Public Buys.  
Charges on Some Articles.

Data compiled from authoritative sources shows that railroad freight rates are the least factor in the cost of living. Although the proportion of the total cost of goods that can be charged to transportation is not known with statistical accuracy, it is estimated that the average transportation cost of things produced in this country is a very small percentage of their total cost to the consumer.

#### Freight Cost 2.4 Per Cent of Total.

In a letter to Representative John J. Esch, chairman of the House Committee on Interstate and Foreign Commerce, Julius Kruttschnitt, chairman of the Southern Pacific Company, points out that in the last five years the value of goods increased on an average of \$63 a ton, while freight charges advanced only 60 cents a ton.

In five years, he explains, the average value of freight carried by the railroads increased from \$56 to \$119 a ton. The cost of carrying this increased from \$2 to \$2.80, paid to the railroads. In 1914, he adds, 3.6 per cent of the total cost of the goods was spent for transportation. In 1919 only 2.4 per cent was spent.

"In other words," Mr. Kruttschnitt writes, "only 80 cents out of \$63, or 1.3 cents out of every dollar of increase in value of commodities in 1919 was caused by increased freight charges. The responsibility for the remaining \$62.20, or 98.7 cents out of every dollar, must be sought elsewhere. It was not caused by freight rates."

#### Rates Lowest in History.

Comparison with transportation charges in other countries shows that in no other country of the world is transportation furnished at so low a cost as in the United States. Compar-

ed, too, with the cost of other goods and services today, railroad transportation is the cheapest thing the public buys. It is sold for less than the cost of production, considering all the elements of cost.

In a statement on this subject to the New England Bankers' Association Walker D. Hines, Director General of Railroads, said:

"I think it is a fair statement that at the present time, despite the increases which have taken place in freight rates, a ton of steel or a ton of coal, a bushel of wheat or the unit of any other commodity has to pay for transportation a less percentage of the price of that commodity than ever before in the history of the country."

#### Charges on Some Articles.

Before the war a suit of clothing from one of the Chicago factories, selling for \$30 in a retail shop, was carried from Chicago to Los Angeles for 16½ cents. The suit of clothes now retails at \$50 or \$60, but the freight rate on that 2,265 mile haul has increased only 5½ cents, while the price of the goods has gone up \$20 or \$30.

The 22 cents does not cover all the transportation cost in a suit of clothes, the transportation charge for carrying the wool from the ranges and the cloth to the clothing manufacturer and other minor carrying costs enter into the consideration, but the final transportation charge is the principal one, and the other charges add only a few cents more.

New England shoes are shipped from Boston to Florida at a cost of less than 52-3 cents a pair. This is an increase of only one cent over the pre-war rate. The railroads also carry beef from Chicago to New York for a charge of about two-thirds of a cent a pound. Typewriters are carried from New York to St. Louis for 66 cents. A \$150 phonograph is carried by freight from New York to Atlanta for \$2.85. A grand piano is carried clear across the continent for \$39 and in carload lots for \$28.

These are typical freight rates, and they make it plain that American railroads give the lowest cost service in the world.

Even with a very considerable increase in rates to make the roads self-supporting, transportation will still be the cheapest thing the public buys.

Miss Elizabeth Adams, who had a serious operation last week is reported doing nicely.

Cam-Hi Entertained Thursday Morn-  
ing by Musical Selection.

Last Thursday morning the Cam-Hi students were honored by hearing Mr. Pennington, a blind musician and Mr. Collins, a musician who plays on the harp-guitar, play. After playing three or four pieces of music, they thought they had ended their program, but not so, for by the applause they gained, it was necessary for them to render two more selections before the student body would be appeased.

The playing of these two gentlemen was intensely enjoyed by the students who have not had such a treat for a long time.

After this program, Miss Harriet Henderson, a former student of Cam-Hi, now attending Baylor, rendered some further musical selections which were thoroughly enjoyed.

### THE GIRLS' CLUB

The Girls' Club met Thursday afternoon in regular session. The house was called to order by the vice-president, and after the reports from all the committees had been heard two things were discussed, and one was voted on. First the club discussed the drawing up of a "code of standards" for each girl to live up to, which was afterwards voted on, and was agreed upon almost unanimously. Then the club discussed the combining of the club with the C. L. C., which matter will be voted on at the next meeting. Afterwards the club marched to the study hall and there met the C. L. C. A report from each club was made, and a committee from the Girls' Club was appointed by the vice-president to write up the code of standards. Then the clubs adjourned.

### C. L. C.

The C. L. C. met Thursday after-

noon in the regular room. The house was called to order by the President Mrs. Crawford brought before the house two very important things which were discussed. First, the club discussed drawing up a "Code of Morals." Then the girls voted on this code and it was unanimously carried. After this, the club met with the Girls' Club, which has been heretofore described.

### MISS KEMP HONORED WITH LINEN SHOWER

(Rosebud)

Miss Johnnie Stallworth entertained most charmingly on Monday afternoon, naming Miss Irene Kemp, one

of the bride-elects of the week, honoree for a lovely linen shower.

Receiving with the hostess besides the fair honoree and her mother, Mrs. M. M. Kemp, were Miss Maybelle Taylor, the other bride-to-be, her guest, Miss Joe Davison of Waco, Mrs. Hal Stallworth and Miss Harriet Thomson of Durango.

The guests were given pages with pictures of appetizing dishes on same and were requested to write the recipe corresponding. These were then gathered and formed into a helpful recipe book for the bride.

A unique contest, "Cupid's Art Gallery," folloyed and was entered into with great merriment.

Miss Vera Warrock then eulogized the approaching Eastertide, emphasizing the joyousness of Love claiming the happy bride and she led in the search for the golden egg of happiness. In the parlor a lovely scene

greeted the searchers. Here Easter lillies were in profusion and every detail contributed to form a picture beyond description. Resting in its grassy nest on a table in the center of the room was the immense Easter egg, filled with beautiful gifts of linen, everything essential to milady's linen chest. Irene responded with sincere gratitude and her happiness was shared by everyone as they viewed the many and handsome articles. Punch and cake were then served informally, the plate favors being tiny yellow baskets of Easter candies.

Assisting the hostess were her mother, her sisters, Mesdames Watkins and Montford, Miss Helen Tuttle and Mrs. Brazelton.

It was a beautiful courtesy paid Miss Kemp, and Miss Stallworth's gracious hospitality was truly enjoyed by fifty or more guests present.

A Guest.

### THE GARDEN LADY'S STORIES

(Written for the United States School Garden Army, Bureau of Education, Department of the Interior.)

#### THE PEA THAT DREAMED OF FLYING

Deep down in the warm, soft garden soil, a wee Baby Pea slept in its faded, wrinkly swaddling clothes of pale grayish gold. Down poured the soft warmth of the April sunshine. The earth grains around the sleeping plantlet seemed to quiver with joy. They had been carefully heaped over the pea by soldiers of the United States School Garden Army.

The Baby Pea was dreaming a beautiful dream of free air and blue sky and soft white wings. Where had it got that dream? We shall see by and by. It seemed in its sleep to be trying to stretch white fluffy winglets. But it was bound fast in its thick, warm swaddling clothes.

There came a stamping as of millions of little feet overhead, and a soft tinkling music shivered and quivered through the earth grains. The baby plant quivered, too. Down trickled a soft, warm rain drop. "Wake up, little baby pea!" it gurgled softly.

Then a soft, warm moisture soaked through and through the coverlet and blankets of the Baby Pea, and the little wrinkled ball began to swell and swell. The heat, the water, and the air caught in the soft mesh of the earth grains began to work on this queer blanket of the baby pea and to turn it into a very good nursing bottle for the baby! The plantlet sucked with might and main.

"Um—Um—This is good!" thought the Baby Pea.

So the little ball swelled and the plantlet stretched until the coverlet was all tight and smooth. Then the coverlet split and the thick blanket opened into parts. The Baby Pea poked out a white foot and showed between the thick halves of its split blanket two tiny, tiny white folded winglets.

The foot was a wee rootlet, and the wings were two wee, crinkly leaflets.

The Baby Pea pushed up out of its split coverlet and looked about it. It could kick off its blanket, for it was fastened tight to the thick halves just above the root.

"Mercy!" it thought, "This isn't blue, and I can't spread my wings. I'll see if I can't get out of this."

So the Baby Pea stretched and stretched and pushed and pushed. There were now three rootlets poked out of the coverlet.

"Mercy! Don't let go yet!" it said to the rootlets. And the rootlets stretched downward as the pea stretched up, and clutched with might and main. At length its head above ground.

It was now well started on its journey, but its thick blanket, which was also a food kit or canteen, too, you

remember, was still tightly fastened to it.

As the baby plant sucked away, the blanket leaves grew smaller and smaller, and dried up, and the plantlet sent downward its little voiceless cry to the rootlets below. The rootlet began to send out little hairy feelers which drew in moisture, and sent it speeding along the stem up to the baby plant.

"Ah, now, this is the real life!" said the baby plant. "Now I shall soon be grown and ready to fly." And it spread out its two little wing-like leaves proudly. They had become very pretty and green by now. But there it stayed still anchored in the earth, though the low ground wind swayed it a little bit.

And in the morning a little soldier of the United States School Garden Army came proudly into the garden and shouted with joy when she saw the little Baby Plant lifting up its green banners.

"Oh," said the little plant, "I do so want to fly."

"Come up higher," smiled the sun. "Grow some more wings" teased the wind.

"Well, I will," said the little pea bravely, and it sent out some more little green wing-like leaves. But still it couldn't fly!

"Anyway, I'll climb," said the little pea, and it stretched out its little wiry arms and delicate green fingers—tendrils the School Garden Army soldiers call them.

Then the Golden Girl came out and set up some lovely branching brush for it to climb on.

"Hurrah!" cried the pea plant. And it was so happy in climbing that it forgot all about flying for a time.

But one night it dreamed a lovely dream. A beautiful maiden, all in floaty white, passed by, and her trailing robe just brushed the plant.

"Oh, beautiful!" it cried, in its own language, which I think, is perfume. and it stretched up its green fingers as if to hold her.

### OAKDALE NEWS

By Mrs. S. Hause

Oakdale, March the 29th.—Everybody in our little woods is stirred up over OIL. They came Sunday, Monday and in fact every day they can get about to see if you will let them lease your land. Some of our men act like they were real oil men, tell you what advantage you will have, but there is some that say wait till it gets ripe. Some have gone into it head and ears.

Mr. A. W. Belt got Mr. O'Neal to take his wife to Cameron to the Sanitarium Saturday morning. We hope that the doctors will cure her. From there Mr. Belt went to Waco to see his mother, who had gone with her other son, Mr. Jesse Belt. She went to the Sanitarium there and was doing well Saturday morning. The Belts live near Prospect, but very close to Oakdale.

Mr. Elmo at Hoyte had a cream supper Friday night. All had a nice time but Hugh Wimberley after he started home and had gotten nearly there his horse got frightened and broke his buggy.

Mrs. Roy Hawbaker and her husband was shopping in Camern Saturday.

Mr. Sid Hause and wife went to Maysfield Tuesday, stopped on their way at Dave Link's and had dinner came back Wednesday. Have not gotten over the trip yet.

Mr. and Mrs. John Wilkerson went to Salem Wednesday and spent the day with her mother, Mrs. Hill.

Mr. A. L. Chatman was in Cameron Saturday after corn. Mrs. Chtman stayed at home as she had an incubator setting and had to be with it.

Mrs. Eugene Hause and little M. P. were at Hoyte Thursday after plants to set out.

Messrs. O'Neal, Frank Fasel, T. V. Wimberley, Leonard Steward, Homan Thompson and other were attending to some kind of business in Rockdale this past week.

Mrs. Ashenbeck, and granddaughter, Miss Sophia Beckhusen, and Mr. Theo were in Cameron twice the past week.

Mr. and Mrs. Roy Hawbaker visited his brother at Temple Sunday.

Mr. and Mrs. O'Neal of Prospect, spent the evening Sunday with Mr. and Mrs. Sid Hause.

Every time you see any one around here you hear them talking oil, oil, oil. How much they will make if they get oil. Some of the women tell what kind of a dress they are going to get. Otehrs are telling where they will move to when they sell out.

Some of our men wiked the road one man going near Hoyte with a bunch and one went near Milano with his bunch. They look better now.

Mrs. Enoch Fisher had her grandson and daughter from Rosebud to spend the week end with her.

Mr. and Mrs. Fikes and children of Cameron spent the day with the Williams family Sunday.

Mr. Mike Taylor and little daughter near Milano were in Cameron Saturday trading. They stopped to see if he could get a cultivator from Mr. Hause, but did not take it with him, but may come back.

Mr. Ernest Cook was in Milano Sunday night with the church people.

Mr. Erwin was in Camern Saturday trading.

Mr. Lagroon came by Cameron taking a nice bunch of goats to a pasture for Virge Woolley.

Mr. T. V. Wimberley and Frank Fasel of Prospect were seeing some of the people that had not leased their land. They did some good talking for the oil men.

Miss Bernice Nicholson of Milano, was in Cameron Saturday.

Mr. J. Cheney of San Antonio and Miss Ruby Bullock of Liberty were quietly married Tuesday evening at the home of the bride's mother.

Mr. and Mrs. Oscar Crawford with their children were visiting relatives in Milano Sunday.

Mr. and Mrs. John Wilkerson went riding Sunday evening.

### SAN GABRIEL GOSSIP

By Mrs. J. S. Woody

March 30th.—Father Time is about to close the first month of spring and April Fool Day comes dawning upon us almost unawares. April, the month of flowers and showers! How beautiful are both! With those approaching, sunny days wonderful changes are made by nature.

About the landscapes and river lie the delicate green veil of early spring. The hedges are green and from the meadows are being driven the last tinge of winter's shadows, while the waters of the San Gabriel river sparkle in a joyous mood.

Gardens and corn are now coming up—but in places the stand of corn is poor. Many are replanting.

High south winds have prevailed constantly throughout the past week and twice returned with equal force from the north, especially on last Wednesday night when after a day of south March wind the blast came howling from the west bearing a fearful burden of tempest. The wall of projectiles, tearing the air, echoes of deonation pronounced it a storm-threat and even our homes appeared to be playthings of this fierce wind. A few old houses collapsed. The Christian church of our village set from its foundation and the Camp gir slightly twisted, with numbers of other minor tragedies, as results of the gale, springing up from the gloom of the midnight hour.

Seth Moseley and son, Clyde, spent the past week end in San Antonio.

Little Miss Lucile Camp spent Saturday and Sunday with her sister Miss Anna Mae, in Austin.

Rev. Roberts of Cameron filled his appointment at San Gabriel Christian Church Sunday.

Mrs. Volley Terry was buying in Thorndale Friday.

Jim Guthrie made the purchase of a Ford touring car last week.

John Woody and Henry Camp attended business in Taylor Saturday.

Mr. Arthur Scrugs and family of Thorndale, attended services here Sunday.

J. P. Reeves and family were here from Thorndale Sunday.

Mesdames Amason and Terry were shopping in Rockdale a day last week.

San Gabriel basket ball boys and Senior girls were opponents to Thorndale teams in a game Friday afternoon in Thorndale. San Gabriel was the victor.

Little Misses Regneal and Lola Mae Richardson of Houston are the happy little guests of their grandmother Richardson here this week.

Mrs. J. T. Woody was trading in Thorndale Saturday.

Mrs. Vira Camp and son, LeTeller, were visitors in Thorndale Saturday.

Victor Sullivan spent last week end in the Alamo City.

Mr. and Mrs. Marvin Davis of Thorndale, were in our vicinity Sunday afternoon.

Mr. and Mrs. Will Lee were trading in Taylor Monday.

Mrs. J. D. Griffith and little daughter, Ione, were shopping in Thorndale Friday.

Little Miss Ira V. Woody was a visitor of the hat-parlors of Thorndale Friday.

Messrs. John Gresham and Rats Locklin were over from Thorndale Moinday.

Mr. Andy Conn of Davilla was a brief caller in this berg Sunday.

Vernon Guthrie was with friends in Sandoval Sunday.

F. M. Amason has dispensed with his Ford touring car and now drives a new Ford coupe roadster.

A. Y. Norman and Harry Clark attended business in Thorndale Friday.

Harry Woody was in Thorndale Saturday.

Frank Richardson returned last Wednesday from a brief visit to his brother in Houston.

Miss Kate Woody was shopping in Taylor Monday.

### BUCKHOLTS NEWS

By Audrey Criswell

Buckholts, Tex., March 29.—Rev. Kelly of Waco occupied the Baptist pulpit Saturday night, Sunday morning and night. Because of the bad lights at the Baptist church the services were held at the Methodist on Sunday night. Rev. Kelly will return to this church on the fourth Sunday of next month. While here he was a guest in the home of Dr. and Mrs. J. Z. Young.

Miss Mary Ellen Davis of Rogers, was here during the past week end.

Mr. W. O. Loftin has moved his family back to their farm near Friendship. Mrs. Loftin stayed in town during the winter to send the children to this school.

Mr. and Mrs. Elmer Horstmann were in Cameron Friday night to attend the movies.

One of the young sons of Mr. Penny who lives near town on the old Tom Poole place, happened to the misfortune of getting his forefinger cut off while he was cutting wood. The severed member was placed back by Dr. Young and several stitches taken. The little boy is getting along very nicely at present.

Miss Gladys Harris who attends Cameron High School was home to see her parents, Mr. and Mrs. H. H. Harris, this week.

Mrs. B. L. Guess returned to her home in Rogers Sunday after several days' visit with relatives at this place.

The beautiful bungalow home of Mr. and Mrs. E. J. Kahler is being very much improved this week as they are having another room added, also the

## BELIEVE SHALLOW WELLS WILL BE GOOD PRODUCERS

UNUSUAL INTEREST BEING TAKEN IN SHOWING OF TRACY WELLS

An increase in the production of the two wells of the Wisconsin Association on the San Gabriel River a few miles southeast of Cameron combined with the prospects of bringing in a producer at the Quebedeaux location stirred oil circles here to fever heat this week.

Increased gas pressure has caused the Wisconsin shallow wells to flow by heads and many have journeyed to the field to view the wells. The wells have been drilled in for more than two months as shallow producers and have been idle. Operators here who visited the field this week estimate that the wells will make at least 15 barrels a day when pumped.

Considerable damage was done by the high winds late last week in the Tracy field, the derrick of the American Underwriters Company of New York having been blown to the ground. The field crew of the company has re-erected the derrick and with the rig at the location the well is expected to be spudded in some time within the next few days. This company has also made a location at Maysfield and it was reported here today that construction of the derrick would begin in a few days.

The Tracy-Maysfield Oil & Gas Company well at Tracy has been delayed owing to repairs being made on the derrick. This company has transported two rigs to the Tracy field and will spud in soon on their shallow holdings.

The Longhorn Refining Company officials are trying to secure option on a site for the refinery. All companies offering stock for sale report good progress in placing shares.

The deep test well of the Wisconsin Association on the Bauer tract has been shut down at 900 feet. Gas and oil are bubbling to the surface about the derrick.

Ten shallow wells of P. E. Johnson and associates in the Henderson tract in Southwest Tracy are being attached to a power plant fitted out in the center of the field and will soon be pumped. Temporary pipe lines have been laid and storage tanks installed for preserving the oil during the test of the wells.

With the exception of a spurt in leases and the increased showing in the Wisconsin wells there has been little out of the ordinary during the week in Cameron oil circles.

## Meet Saturday to Finance Cotton Classing Station

Considerable effort is being made by the business men of Cameron and the Commercial Club Committee of which T. S. Henderson, Sr., is chairman, to get a representative gathering of farmers and cotton men here Saturday at which time the matter of maintaining a federal cotton classing station will be decided upon.

This matter was given attention two weeks ago in the meeting of the Commercial Club.

The cotton classing station, has increased the trade territory of Cameron, the committee asserts, and its maintenance is necessary to draw increased cotton production to this center.

The farmers will be asked to become active in the support and maintenance of the station. The station will have to be financed by local interests as the federal government has withdrawn its support except to see that a classer is furnished for the office.

An urgent appeal is made to the interests of Cameron and the farmers to attend the meeting Saturday in order to successfully lay the plans for maintaining the station for the coming season.

The Cameron station is one among the few maintained in the State.

## 5 CHILDREN ARE SLAIN IN OKLAHOMA

Elk City, Okla., March 31.—With their heads badly crushed and their throats cut, five small children of Mr. and Mrs. Elmer Cowart were found dead early today in a tent in which they had been making a temporary home three miles south of here. The wife and mother lay beside the children with her throat badly slashed. An axe, razor and butcher knife, all blood-stained, were found in the tent.

Screams of the children attracted a man who was plowing a field nearby, but all the children were dead before he reached the tent and the mother had succeeded in slashing her own throat. The eldest of the children is a boy 10 years old, and the others are a girl, 7, a girl, 5, a boy, 8, and a babygirl, 4 months old. Three older children were found piled on a bed, their heads crushed and their throats cut, while the other two were lying beside the mother on the floor, in the same condition.

Mrs. Cowart was rushed to a hospital here, but physicians hold out but slight hope of her recovery. She had been slightly despondent since an attack of influenza, her husband said today, but had shown no signs of mental derangement. Cowart arose early this morning and before he went to his work his wife prepared his lunch for him, apparently well and in the best of spirits.

## LULL IN OIL FIELD

## NEAR ROCKDALE MAY SOON CLOSE ON REFINERY SITE

QUIET WEEK WITH LITTLE ACTIVITY—COMPANIES AWAIT MATERIAL

Rockdale, Texas, April 1.—This has been a very quiet week in local oil circles. The town has had many visitors but news of actual work in the field can almost be confined to the statement, "nothing doing."

The Avo Oil & Refining Association has made the location for its first test in the Tracy field on the Widow Gililand tract. The rig is being placed this week and shipments of casing are enroute.

The Underwriters Oil Company at Tanglewood is drilling at around 1700 feet.

The Texas-Oklahoma people are still shut down, awaiting casing with which to cut off quicksand, as is also the Davidson Creek Company.

The Quebedeaux well on the Bauer tract is still engaged with a fishing job at this writing.

Just unloaded a car of Rice Bran and Rice Polish. Fine feed for your pigs.—F. A. Green, Phone 283.

The semi-annual meeting of the Cameron Commercial Club was held last Friday night in the district court room. Election of officers and a board of directors was held. With the exception of changes in the board of directors the old officials were returned to office.

After the meeting which was addressed by Hon. W. G. Gillis and H. L. Knight, secretary and manager of the Nacogdoches chamber of commerce, dinner was served the members on the campus of the court house.

The meeting was one of the most enthusiastic ever held by the Club and was marked by a splendid attendance. The Club plans to do greater things for Cameron in the future.

The past year with the Club has been the most successful in its history many permanent things having been accomplished through its offices.

### BIG INCREASE IN SCHOLASTIC CENSUS

An increase of 133 in the scholastic population of Cameron is shown by the returns made by W. J. Walker who has just completed the enumeration and filed the returns with County Superintendent, Jim F. Chadwick.

This increase will show approximately what per cent increase will be shown in the population of Cameron and if these figures form a basis of accurate calculation the Federal census will give Cameron a very substantial increase in numbers.

The following figures show the scholastic population of Cameron.

## TRACY SHOWING INCREASE ACTIVITIES OF OFFICIALS OF NEW INDUSTRY

Officials of the Longhorn Refining Company who last week were reported negotiating for a site near the tracks of the S. A. & A. P. railroad, have been unable to close for this tract of twenty acres.

John Bertrand, general manager for the refinery, says he and other officials hope to close for this site in a short time.

The increased showing in the shallow wells at Tracy coupled with the development in the local fields during the week has enabled the officials of this new born industry to make considerable progress and they report substantial advancement although the company is scarcely a month old.

The week was marked by hundreds of inquiries and many prospectors coming here to look over the Milam county fields. With the increase in production of some of the Tracy wells operators as well as refinery men say that the production of this field when brought to maximum will support several refineries of the capacity proposed.

## BAILEY CLUB IS ORGANIZED HERE

SUPPORTERS OF FORMER SENATOR PLAN ACTIVE COUNTY CAMPAIGN

Supporters of former Senator Joseph Weldon Bailey for Governor of Texas have organized a Bailey Club for Milam County.

The Club was formed Saturday March 27, at a meeting held in the county court house which was to have been addressed by Judge C. F. Greenwood of Dallas in the interest of Mr. Bailey. When the speaker could not fill the engagement a conference was called and an open Bailey meeting followed.

W. A. Morrison, Cameron attorney and Bailey supporter, was elected chairman of the meeting and of the Club. Mr. Morrison called the meeting to order. J. J. Dunham was elected vice-president. Sam Hefley, ardent supporter of the former Senator and who had taken an active interest in organizing the club was chosen chairman of the executive committee. The club was organized with an initial membership of 225 as given by the chairman, Mr. Morrison.

The club plans an active campaign for the former Senator in Milam county and the immediate future holds a number of speaking dates.

This is the first political club to have been organized in Milam county in connection with the governor's race.

## WILL SPEAK FOR BAILEY SATURDAY

HON. W. W. NELMS OF DALLAS WILL SPEAK AT 1 P. M. SATURDAY

Hon. W. W. Nelms of Dallas will speak in Cameron at one o'clock Saturday in the interest of the candidacy of Joseph Weldon Bailey for governor of Texas.

The appearance of Mr. Nelms here Saturday is through the efforts of the speakers' bureau of the Bailey Campaign and the Milam County Bailey Club of which W. A. Morrison of Cameron is chairman.

Judge C. F. Greenwood was scheduled to speak here last Saturday in the interest of Mr. Bailey but was ill and could not fill the engagement. A substitute speaker was sent but late trains prevented his reaching Cameron.

This will be the first public utterance touching on the present gubernatorial race in Texas to have been made in Cameron. While considerable interest is being taken in the race little

## WISCONSIN CO. SHALLOW WELLS BELIEVED TO INDICATE SITE OF BETTER POOL

Considerable excitement prevailed in Cameron Tuesday and Wednesday over the prospect of the bringing in of the Quebedeaux well on the San Gabriel south of the city and the increased production showings of the Wisconsin wells on the Bauer tract near that place.

Increased gas pressure in two of the shallow wells of the Wisconsin Association in the San Gabriel river bottom has caused the wells to flow by heads and operators and citizens of Cameron who have visited the wells during the past two days believe they will make from 20 to 30 barrels.

The wells have been idle for more than two months and the sudden increase in their production has led oil men to believe that real production will be obtained in the Tracy-Maysfield in much less time than was anticipated.

The wells are located in the southeast extension of the field. About one hundred yards to the north of these wells is the rotary rig of the Wisconsin Association which is idle. The well at the rig is down 900 feet and oil and gas are bubbling to the surface.

Many operators have said that five barrel wells could be obtained at any place in the Tracy field but now that there has been a sudden increase in the Wisconsin wells it is said that the production will be stronger.

Leases are going to heights never before attained and operators are finding it hard to get in this field with a claim on acreage. It is reported that leases have sold as high as \$200 an acre in the Tracy field during recent weeks.

With the exception of this there has been little development in the field this week.

Considerable damage was done in the Tracy field last week by high winds. The derrick of the American Underwriting Company was blown down but has been reset. The machinery is on the ground for the deep test.

Out at Maysfield where operators are looking for a big strike, the well of the Tracy-Maysfield Oil & Gas Company spudded in near two weeks ago is expected to be resumed today as repairs have been made on the derrick.

P. E. Johnson and associates are completing pumping equipment on ten wells in Tracy.

Development has been subjected to a lull all over the county, little activity being reported from Rockdale.

The Quebedeaux well which showed strong in oil and gas last week is expected to be brought in as soon as obstruction can be removed from the casing. This well is on the banks of the San Gabriel in Tracy field.

has been heard from the actual contestants since the opening gun was fired by Pat Neff.

It is planned that all the candidates will be asked to include Cameron in their itinerary of the state.

## WELFARE MEETING HELD IN TEMPLE NEXT WEEK

The fourth annual child's welfare conference of the Fourth District of Texas Congress of Mothers' and Parent Teachers Association will be held in Temple, April 7, 8, 9 at the First Methodist Church.

The conference will begin at 2 o'clock in the afternoon of Wednesday and will close at Friday noon.

Every Parent Teachers Association in the county is asked to send delegates. Any member who can attend will be welcome.

The program will be to discuss the problems of child life today. There will be illustrated lectures. Miss Annie Webb Blanton will address the meeting.

## REVIVAL MEETING AT M. E. CHURCH IS BIG SUCCESS

ATTENDANCE OVERFLOWS THE CHURCH.—REV. IRA F. KEY IS PREACHING

One of the most successful revival meetings ever held in Cameron, the meeting now in progress at the Methodist church is being attended by hundreds and it has become necessary to hold services in other churches Sunday night to accommodate the overflow crowds.

The preaching is being done by Rev. Ira F. Key, the pastor of the church. Strong and appealing evangelical sermons specially prepared for this revival have marked the progress of the meeting and attracted an attendance seldom noted at meetings of this kind in Cameron.

Rev. Ira F. Key has been in Cameron only a short time as pastor of the Methodist church but the work has prospered under his leadership. Rev. Mr. Key is a man of fine personality and force of character and these qualities enforced by commanding eloquence as a speaker is reflected in his successful conduct of the meeting.

The church is preparing for a big day Sunday. An appeal is issued for all Cameron to worship Sunday. The singing at the meeting is being led by Rev. John Adams.

## WILL DISTRIBUTE NEW CARS HERE

DAUGHERTY MOTOR CO. TAKES ON CLEVELAND AND CHANDLER

The Daugherty Motor Company of Cameron has closed a contract to become distributor for the Chandler and the Cleveland cars in this territory.

The closing for this distributing right was made last week when E. A. Flinn visited Dallas for that purpose. The introduction of these popular cars will greatly increase the prestige of this point as an automobile distributing center.

The company now has a Cleveland on display in its showroom.

The Daugherty Motor Company is the local distributor for the Chevrolet car. A splendid business has been built up on the Chevrolet car and with the addition of the other cars this firm will have a latitude of distribution covering three prices in automobiles.

## CITIZENS OF CISCO SHAVE EACH OTHER DURING BARBER STRIKE

Cisco, Texas, March 27.—Cisco can't be bothered by strikes. When the barbers showed no intention of returning to work Friday and the proprietors showed no inclination to capitulate to the union men's demand for 65c of all earnings, instead of 60 per cent, local business men walked into the shops in pairs, shaved one another, paid the cashier and left.

Until the strike is settled, Chief of Police Wiley C. Hitt, son will shave and barber W. E. Morris, president of the Chamber of Commerce, and Morris will reciprocate the chief's tonsorial attentions.

Others who have made similar agreements are Stuart Williams, secretary of the Young Men's Business League, and N. F. Payne, exalted ruler of the Elks; T. C. Williams, local business man, and Frank Page, wealthy contractor.

The foregoon pair commanded a shop today and then began their operations on one another. The agreements are verbal, and waive all damages.

# SPRIT OF '49 IN OIL FIELD RUSH

Southwest Now Presents the Same Melodrama  
of Sudden Wealth that Pioneers Knew In  
Days of the Gold Craze.

The days of the Forty-niners have come again in Louisiana, Oklahoma and almost of all in breezy Texas, says the sun and New York Herald. The gold rush of our grandfathers have given place to the oil rush of today. Instead of prairie schooners these argonauts fare forth in Pullman trains (chronically four to six hours late)—and instead of prospectors on "grub stakes" there are oil drillers at any number of real dollars per day; but the wild, adventurous spirit is the same and the reckless spending of hastily won fortunes and also the fist fights and the gun play!

It is this same adventurous spirit, this recklessness and taking of long chances that attracts so many old campaigners of the A. E. F. to the oil fields. If you are "in right" you may be a pauper today and a millionaire tomorrow. And then again, you may be dead—if some "bad hombre" who has been toying too long with the wood alcohol happens to take a dislike to the shape of your nose. Burk-Wagoner, the newest and toughest of the Texas oil towns, has seen as many as three shooting affairs in an evening. You may, too, if you desire, lose all your oil holdings in one little poker game any evening. Quarter limit isn't popular in that sector.

## Many From the A. E. F.

All this looks good indeed to Corporal Smith and Sergeant Jones, who have been used to gambling with Jerry for tolerably high stakes and who now find bookkeeping on a shiny office stool a little tame. The oil towns are khaki towns, all dressed up in samurais of O. D. issue. Here it's a blue serge suit with a campaign hat,

puttees and field shoes; there an army mackinaw over corduroys, and yonder an aviators' leather coat and goggles perched on the front seat of a rattling Ford. Even the office men are A. E. F. graduates; yonder snappy stenography wears a monogrammed silk shirt, but his breeches are O. D., and he still limps a little from the bit of shrapnel that he stopped in the Argonne.

"These boys are surely getting a good start in Texas," beamed the friendly old chap who showed the writer over Burkburnett. "Texas sent over 80,000, and she wants to do 'em right now that they're back. See those two?" pointing two fellows in half uniform and half civvies, rattling along on a new two-ton truck. "They've just bought that and started carrying supplies from Wichita to the field. I started 'em—gave 'em their first load this morning to help the good work along."

## Chicago of the Southwest

Fort Worth, that thriving young burg which calls itself "the Chicago of the Southwest," proved to be an ideal starting point for oil investigators, both for geographical reasons and because a few days spent in Fort Worth insure one to hardships and prepare one for anything.

"Don't expect to get a room in any Fort Worth hotel," some had warned me. "They hang you on a hook down there."

He was about right. You surge into town at midnight on a train that was due at 7:30. You then storm the Westbrook, conceded to be the best hotel. A bored hotel clerk tells you with a yawn that he can't find any trace of your reservation; come

around tomorrow, if you like. Well, that's all right! You have already learned from the Encyclopedia Britannica that Fort Worth has 31 parks and it is a perfectly lovely night.

Eventually, if you know the major or have a letter of introduction from John D. Rockefeller, you and your baggage are established—but not at the Westbrook—in a fairly good room, with running water and electric light, for a mere \$3 a day without bath. This is cheap.

Meals are cheaper than in New York—but nowhere near so good. Quantity and not quality, is the cry of the husky driller. When it comes to buying clothes! My! My! A \$50 suit travels from Dallas, two hours away and accumulates a \$25 raise on the way. A fur coat one could acquire for \$125 on Fifth Avenue bound up to \$500 in the Chicago of the Southwest. On any sort of women's clothes the sky is the limit; for the wives of the oil millionaires must spend their money somehow and what could be sweeter than crepe de chine lingerie at \$15 the garment, gold lace hats at \$40, \$19 silk shirts for hubby and \$1000 suits of pale mauve furniture for the stucco bungalow?

## Pecans at Two for a Nickel

Even apples cost 10c a piece, and pecans—called pe-cawns in the South—are two (2) for a nickel, and the Texan's favorite "five-gallon hat" of pale cream beaver sets him back \$75.

Fort Worth in its present halfway stage between a cattle town and a metropolis is fascinating. One-story shacks lean drunkenly against white marble skyscrapers; battered bicycles sprawl on the curbstone to trip up the oil millionaires as they alight from their shiny new motors, and costly imported cars and rusty, dusty Fords jostle one another along the two main streets. Every seventh person owns an automobile and is always willing to give any of the other six a ride. You can't go a block out of town on foot without the cherry offer of a lift.

And the Westbrook, with "Oil Leases and Drilling Properties" occupying nooks of its lobby, shows the

same mingling of types; ermine capes and tobacco juice; hip boots and Paris hats; prospectors in corduroys and tall crowned beaver hats, figuring the profit on 15,000 barrels a day at \$2.50 a barrel, and immaculate gentlemen in English lounge suits who can advise you about something good in oil stock—and would appreciate a small loan. This, too, is the habits of the "lease hound"—usually a dark, lean mysterious lady, sniffing about desirable properties to buy.

## The Native Texan.

The native Texan is delightful—so simple, kind and friendly, so gallant and hospitable! Lean, tanned, wiry with far seeing gray eyes and aquiline features, he is good looking even with a badger haircut! He is partial to fall leather boots with elaborate leaf and scroll decorations, and to lurid shirts, ties and hatbands. He is slow and hesitant in speech, camouflaging opinion under such phrases as "He's somewhere near about right!"

The typical Texas girl wears a nobby leather coat, topped by a wool tam-o-shanter of any brilliant hue. Old ladies trot about in tobogganing caps, and there's an occasional Southern dandy in sunbonnet and calico dress; but neither these nor feminine heads swathed in gaudy mufflers nor the most a la Paree costume imaginable in contrast attracts any stares from the courteous Texans.

The Fort Worth chamber of commerce, as usual, has the army and navy in full charge. The ex-C. P. O. quoted me this interesting paragraph from a railroad folder:

"The story of oil in Texas is like a page from the Arabian Nights, in which the wildest dream of wealth come true. For little more than a year it has been in the writing, and it is still far from complete, but in number of people involved and in the amount of wealth realized it has been many times greater and more spectacular than was the romantic gold rush of '49."

"From the Burkburnett, near the extreme northern boundary, straight down through the center of the State and on to the great Tampico oil fields in Mexico, extends a geological

formation known as the Pennsylvania stratum. Here thousands of men and women have grown rich overnight, many among this number having visited Texas for the first time a year ago for the sole purpose of enjoying the mild climate and the winter sports."

## An Anticlimax.

The ex-sergeant furnished an anticlimax to this by offering some oil stock, as he had some to give away. Unsuccessful in this generous effort he presented the writer with two stout pamphlets entirely filled with statistics indicating that Fort Worth was first in war, first in peace and first in the hearts of the cattle, grain or oil men.

The editor of the Legionnaire, a flourishing young publication well worth the attention of Legion members in the East, proved a mine of information. He explained that in many cases, even in Texas, the promoters made the millions while the original owners of the property had sold out for a couple of thousands. Contrarywise there were other cases when the farm owner got a goodly sum for his oil rights and the bloated capitalists, having spent \$10,000 or more in sinking a well, found no oil.

Beaumont was the first oil field to be developed in Texas—the Spindle Top properties, now played out, though many people expect them to produce again. It was at Spindle Top that "oil maggots," as they are sometimes malaprop'd, made frantic but unsuccessful efforts to buy up a cemetery where they wanted to dig wells. The only result was a popular widely circulated bit of verse called "Not for Sale." Beaumont is strictly a town of millionaires today, and yet there is only one real hotel, and that as unwilling to take you in as the Westbrook at Fort Worth.

## Tent Hotel at Wichita

And now, all aboard for Wichita Falls—usually referred to briefly at "Wichita." The Denver line takes you there from Fort Worth, and a branch road runs to Burkburnett, the actual field. Hotel accommodations were even scarcer at Wichita than in Fort Worth, incredible though that seemed. It's at Wichita Falls that

the famous "tent hotel" has been doing business. Some enterprising beings bought up a lot of surplus army tents, army cots and blankets. For \$2 and up the shelterless "oil maggots" could rent a cot for a specified number of hours, but he must be out by 8 a. m. to make room for the next fellow.

(To be Continued.)

## Merit That Makes Mileage —In Tires for the Smaller Cars

Such extraordinary competence and care-fulness as are characteristic of all Goodyear manufacture likewise characterize Goodyear's building of tires for the smaller cars.

Only very unusual experience and endeavor make possible the high relative value built into the 30x3-, 30x3½-, and 31x4-inch Goodyear Tires in our Plant No. 2, the world's largest factory devoted to these sizes.

In addition to the larger sizes Goodyear builds, a daily production averaging 20,000 tires of these smaller sizes alone makes them easily available, regardless of the big demand, to owners of Ford, Chevrolet, Dort, Maxwell, and other cars taking these sizes.

If you are one of these owners, go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He carries a stock.

30x3½ Goodyear Double-Cure  
Fabric, All-Weather Tread \$23.50

30x3½ Goodyear Single-Cure  
Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$4.50

## INTERCHURCH MASS MEETING CAMERON, APRIL 13th

Word has just been received from  
Interchurch headquarters that the  
mass meetings for Milam county has  
been set for Tuesday, April the 13th.  
This meeting is one of over three  
thousand being held in the United  
States about this time. A strong  
team of four minister and one woman  
worker will present a full program.  
This will be along the same line as  
the Pastors' Conference at Dallas  
last February. See notice elsewhere  
in this issue.

Judge and Mrs. John Watson are  
taking steps toward adding and beau-  
tifying their already beautiful and  
comfortable home. Hardwood floors  
will be put down, a rock mantle built  
in the reception room and additional  
window cut.

versity, came home last week end and  
in company with her mother spent a  
few days in Rosebud visiting\* rela-  
tives.

Miss Mary McLane returned to  
Baylor University Monday after an  
extended stay at home recuperating  
from flu.

## MAJ. GEO. T. TURNER AGED PIONEER IS DEAD IN CAMERON

LED ACTIVE LIFE AND HAD RE-  
SIDED IN MILAM COUNTY  
SINCE 1886

By Mrs. Jeff T. Kemp.)  
Major George S. Turner, aged 92,  
died Saturday afternoon at the resi-  
dence of his son, Thomas H. Turner,  
in North Cameron, and was buried in  
Oak Hill cemetery Sunday at 3 p. m.,  
Rev. Ira F. Key, pastor of the Metho-  
dist church officiating at the funeral  
services. The family of his son, Mr.  
Arvis B. Turner of Rosebud, were  
present when the end came, but other  
relatives, who had recently visited  
Major Turner in his illness were not  
recalled for the funeral.

Major Turner came to Milam coun-  
ty in 1886 and for his loyal interest  
in the religious and educational af-  
fairs of his community was regarded  
as a splendid citizen.

George Samuel Turner was born  
September 28, 1828 of Scotch-Irish  
parentage in Edgefield District, South  
Carolina, where he spent his boyhood  
and remained until his twenty-eighth  
year. In his young manhood he was  
fond of military pursuits and he be-  
came an officer in the State Guards.  
For excellence in drill work a sword  
was presented to him which he treas-  
ured through life. In 1845 he greatly  
desired to join the Palmetto Guards  
and go to Mexico with the United  
States troops but on account of his  
youth his father objected and he  
obediently remained at home.

In 1856 he moved to Greensboro,  
Alabama, and engaged in farming,  
being for two years overseer on the  
Jones Plantation and later overseer  
for Mr. Warren Kennedy of Kennedy  
Bro., who owned large estates and  
carried on extensive business enter-  
prises. Mr. Turner gained the honor  
and respect of both the owners and  
slaves on these plantations.

On September 28, 1860 he was mar-  
ried to Mrs. Sarah Caroline Mackey,  
a daughter of Squire John Boyd of  
Perry County, Alabama, a widow with  
two small sons, Richard Calhoun  
Mackey and George Goldberry Mack-  
ey, whom Mr. Turner loved as his  
own sons.

A little daughter, born August 16,  
1868, died in their grief the par-  
ents adopted a little orphan boy who  
grew to manhood in their home and  
is now known by their name. The  
two sons who survive their father  
were born in Alabama.

When the South was called to arms  
Mr. Turner enlisted as a private in  
Co. H., 8th Alabama Cavalry, but  
from his knowledge of military affairs  
and for gallantry and bravery he  
soon became Captain of this Company  
and at the cessation of hostilities he  
had achieved the rank of Major in the  
Confederate forces.

At the close of the war he returned  
to his desolated farm on Brush Creek,  
Alabama, where he remained until  
1886 when he removed to a farm near  
Curry, where he lived until he re-  
moved to Cameron.

His latter years were saddened by  
the death of his wife, April 20, 1912  
and during the epidemic of 1917 his  
grandson and namesake, George Tur-  
ner, and his young wife died on the  
same day and in the same week, an-  
other grandson, Luther Turner died  
all victims of that dread disease.

Major Turner is survived by his son  
Thomas H. Turner of Cameron and  
four children; his son, Arvis B. Tur-  
ner of Rosebud and seven children;  
his adopted son, Mr. Wallie W. Turner  
of Maysville, Oklahoma and seven  
children; his stepson, Mr. G. G.  
Mackey of Birmingham Alabama,  
and ten children and the two sons of  
Mr. R. C. Mackey, deceased.

Major Turner became a member of  
the Methodist church in 1860 and lived  
a consistent life for sixty years in  
this faith.

## GOODYEAR NOW OWNS GREAT AVIATION FIELD

With the purchase of the United  
States Naval Air Station at Wingo  
field at Akron, Ohio, the Goodyear  
Tire & Rubber Company obtains pos-  
session of what is probably the largest  
privately owned aviation field in  
this country.

Located within two miles of the  
of the company's factory, the new  
field will be used for the expansion of  
aeronautical activities, especially the  
manufacture of large airships for  
passenger and commercial uses.

Tentative plans have been made by  
the company to establish a flying  
school for the training of airship pi-  
lots to anticipate the need of airship

lines in various sections of the coun-  
try.

Wingfoot field willallow the suffi-  
cient facilities for the complete man-  
ufacture of dirigibles and trials after  
completion. It is planned to have a  
dirigible at this field at all times for  
demonstration purposes.

Established by the government two  
years ago, Wingfoot field afforded  
facilities for the training of several  
thousand dirigible pilots and observ-  
ers for kite balloons. The hangar is  
400 feet long, 150 feet wide and 80  
feet high, capable of housing three  
163 feet airships of the type built for  
the United States Navy during the  
war. There are barracks for 1,000  
men and a hydrogen generating plant  
capable of producing 100,000 cubic  
feet of gas daily for the inflation of  
airships.

If the present expectations of the  
company are realized, the purchase of  
this huge aviation field will make  
Akron one of the leadin air ports of  
the country.

## THREE MEN VICTIMS OF ROBBERS IN OIL FIELD

Wichita Fall, March 31.—Twelve  
oil field workers were robbed last  
night in the suburb of Burkburnett  
by three bandits, one of whom recent-  
ly escaped from the Wichita County  
jail.

The highwaymen secluded them-  
selves in the darkness and robbed  
their victims as they passed a vacant

lot. The series of robberies extend-  
ed over several hours, the laborers be-  
ing robbed as they passed toward  
their homes.

Approximately \$200 was taken  
from the oil field workmen. Three  
arrests have been made.

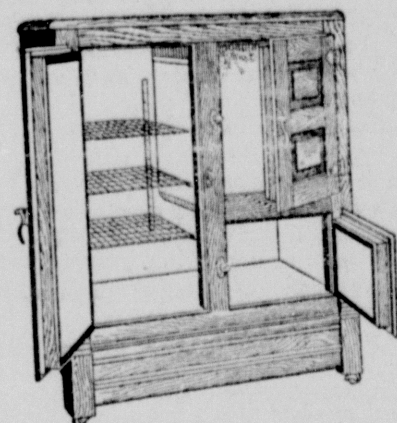

The Ladies of all the churches gave  
away their societies Monday after-  
noon to the Ladies' prayermeetings  
throughout the town.

### A ROMANCE

Mr. B. H. McLerran of Cameron, accompanied by his sister, Miss Ola McLerran, met his bride elect, Miss Agnes Edgar of Dumfries, Scotland, Friday the 19th and were married at the Presbyterian manse by Rev. J. P. Robertson.

Mr. McLerran met Miss Edgar while in the air service overseas and their meeting culminated in a true love match. Since his return Mr. McLerran holds a responsible position with the Wayne Oil Tank and Pump Company and has made Dallas his home.

Miss Edgar, brave and true and charming arrived to join her heart's choice on the Antillian of the Lilly-land line and within thirty minutes of her arrival in the presence of Mr. McLerran's sister and a few intimate friends, they were made one.

After a short visit with Mr. McLerran's parents the happy couple left for their future home, Dallas. The Herald and other friends of Cameron wish for them all the joys of life and great prosperity.

### ANNOUNCEMENT PARTY

One of the most interesting social events of last week was the announcement dinner given by Mrs. Roy Baskin to announce the marriage of Miss Vace Hardy and Mr. J. C. Tucker of Garland, Texas.

The Killkarees and Sigma Phi's were invited to dinner and all unsuspecting the arrived at Mrs. Baskin's, and not until they entered the dining room did they catch the purport of their gathering together. The color scheme was pink and white and the center piece was a reflector in which rested a great white cake lettered in pink with a blue bird perched high as if to tell the inscription: "Vance and Tuck, April 20th, 1920." The reflector was surrounded with sweet peas and ferns. It was a Buffet luncheon and the buffet was laden with shrimp salad, pineapple salad, potato chips, bread and butter sandwiches, olives, jelly, crackers, hot chocolate with whipped cream and ice cream and cake. The guests marched around and helped their own plates amidst a merry chatter of good wishes and plans for Miss Hardy and the wedding.

When the cake was cut the ring fell to Miss Estelle Coleman for telling that she would be the next bride, the dime to Miss Mary Lake Henderson for wealth, the penny to Miss Lilly Mag Jeter for poverty, and the thimble to Miss Vance Hardy for a life of sewing.

Those present other than the two clubs were: Mesdames Tom Denson, Tom Henderson, Jr., Stanley Bowles, Chas. McDermott, Misses Amy Wade of Belton, Gladys Watson, Grace Gil- lon and Anna Lou Baskin.

### KEMP-MAY

Fifty or more people of Cameron went to Rosbud Sunday afternoon to witness the marriage of Miss Irine Kemp and Mr. Harry Cromwell May. The wedding took place at 5 o'clock at the M. E. Church, with Brother Bell officiating.

The church was beautiful and resplendent in Easter lillies, pink rose and ferns.

Just before the arrival of the bridal party, with Mrs. Claud White at the piano and Miss Vera Warrick with the violin, Mrs. Alex Triggs sang "Because." Immediately after the song a company of voices rose and sang the Bridal Chorus and while this was being sung the bridal party entered.

Four ushers, Mr. Joe Denson as best man and Miss Rosa Kemp were the attendants. The bride came in on the arm of her brother. She was handsomely gowned in a blue coat suit, with accessories to match, carrying a gorgeous bouquet of Easter lillies and lillies of the valley. The maid of honor, Miss Rosa Kemp, was dressed in a beautiful blue af-feta dress with large picture hat, carrying Easter lillies.

After the ceremony the bridal party repaired to the home of her parents and were served to punch.

Mr. and Mrs. May departed for a two weeks tour, after which they will make their home in Cameron. Mr. May being established with the Carey Lumber Company.

The Herald and the people of Cameron are happy to have this happy couple remain and establish their home in Cameron.

Some of those who went up to witness the marriage were: Mr. and Mrs. Jeff Kemp, Mrs. Ella Hooks, Mrs. Burns and son, Billy, Mr. and Mrs. Ralph Head, Miss Delphia Scott, Mrs. Shade Denson, Mr. Simmie Burns, Jr., Miss Mary Lake Henderson, Miss Vance Hardy, Miss Clara Thomas, Elbert Hood and Tom Law.

Mr. and Mrs. Oscar Kidd and children.

### THE PRISCILLA CLUB

The Priscilla Club met with Mrs. Henry Hefley on last Thursday afternoon at her home on Hefley Heights. In addition to the six members present special guests were Mrs. J. L. Clinton, Stanley Bowles of Dallas Tom Henderson Sr., Tom Henderson, Jr., and Miss Mary McLane.

The usual needle work, conversation was the diversion of the afternoon.

Assisted by the little daughter of the home Mrs. Hefley served a delicious salad course of tumie salad, pimiento salad, fig pickle sandwiches and pineapple ice.

### BRIDGE CLUB

Mrs. U. S. Hearrell was the charming hostess to the Bridge Club last Friday at her lovely new home on Hefley Heights.

As is always Mrs. Hearrell's custom, her parties are second to none, but beautiful in every detail. On this occasion her reception hall and dining room were resplendent in pink carnations. The living room with baskets of sweet peas. The mantle was banked with the favors for the games—rabbits, Easter baskets, little chickens, etc.

Master Giles Avriett, dressed in a white Oliver Twist suit passed the score cards, which were in pink carnation design. The tally pads also were stamped in pink carnations. There were three tables playing and as each won a game they went to th mantle and selected their own favor.

At the conclusion of a number of interesting games it was found that Miss Aetna Smith had won high score and was given a gorgeous bunch of pink carnations, and Mrs. Fritz Fahrendorf won high score among the guests and was given a box of candy.

Assisted by Mrs. Hearrell's charming daughter a two course luncheon was served, consisting of shrimp salad, stuffed tomatoes, olives, lettuce sandwiches, fresh strawberries, Angel Food cake.

Guests other than club members were: Mesdames T. S. Henderson, Jr., Roy Epperson, Cottle, Fritz Fahrendorf and Miss Mary Lake Henderson.

The next meeting will be with Mrs. Tiff Moore. The ladies were profuse in their thanks to Mrs. Hearrell for the delightful afternoon's pleasure and not until the shadows begun to lengthen did they take their departure.

### AFTERNOON PARTY

Mrs. Charles McDermott gave a "Spend-the-Afternoon-Party" Monday in honor of Mrs. Stanley Bowles of Dallas. The guests were asked to bring their sewing. Those who found it convenient to accept the invitation were: Mesdames Stanley Bowles, Roy Baskin, Giles Averiett, Simmie Burns, Jr., and Misses Vance Hardy, Lillie Mag Jeter, Ruth Henderson, and Clara Thomas. With so many social events just past, so many occurring each day, and others to come, there was an interesting season of conversation.

Just before sewing the little daughter of the home brought in a little wagon full of Easter rabbits and each guest was presented with one. Mrs. McDermott then served a salad and ice course, consisting of chicken salad, olives, crackers, bread and butter sandwiches and orange ice. Each plate contained a favor of a bunch of sweet peas with a large bunch to Mrs. Stanley Bowles, the honor guest.

## LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

## You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS Chill TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS Chill TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS Chill TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS Chill TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

## Safe Blowers In Motor Car Kills woman; Speed On

Chicago, March 21—Safe blowers riding at top speed in a motor car, struck and killed Mrs. Lottie Strane, who was crossing the street. Her body was thrown high in the air. The death car sped on, its occupants cursing the woman for getting in the way. The conductor of a street car who witnessed the murder jumped to the street and fired several shots at the rapidly disappearing automobile. The police were notified and rifle brigades were sent out to tour the district. One of these parties came upon the death car, standing in front of a garage. It contained three men.

As soon as the police came in sight, the driver of the car started his machine, while his companions opened fire on the officers. Twenty shots were fired by the police, but the green car and its occupants escaped. The car had been stolen March 8. Later it was found abandoned under the elevated railway. Seventeen bullets had struck it, smashing the windshield, ripping the side curtains and puncturing the body, but there were no evidence that any of the bandits had been wounded.

Mrs. Strane was 28 years old. Her skull was fractured and practically all her bones were broken when the death car struck her.

## NEGRO IS TRIED AND HANGED 14 HOURS AFTER CRIME

SAN AUGUSTINE GRAND JURY  
TAKES QUICK ACTION IN  
MURDER CASE

San Augustine, Texas, March 23.—John Hood Price, a negro was legally hanged on the public square here, fourteen hours after his conviction for the murder of John Kennedy, a farmer.

Price was tried at a special court session at 9 o'clock last night, the grand jury having convened especially in the evening to return an indictment. Price maintains he did not commit the murder.

Price was captured late yesterday and placed in jail here at 4:30 p. m. A special grand jury indicted him on a charge of murder; a jury was immediately sworn in and court held last night by District Judge T. J. Adams of Orange. The negro was found guilty and sentenced to hang.

### Farmer Slain at Home

Kennedy was shot and killed last Thursday night at his home three miles northeast of this city. Two charges from a shotgun were fired into his body from a window, as he sat reading a paper. Kennedy lived alone, and it was not until the next morning that his negro cook discovered his body.

It was declared that the negro and Kennedy had a dispute the day before the shooting and search immediately was instituted for Price. A deputy sheriff caught him at Alto and officers brought him to the jail here.

Considerable feeling was evident in the crowd that quickly gathered at the jail, but any likelihood of violence

was averted when a brother of Kennedy asked that justice be permitted to take its course as speedy as possible.

### Sentenced at Once

Judge Adams was holding court at Hemphill and he was at once notified. He came here by automobile, court was immediately convened, a grand jury impaneled, and his indictment and trial followed. When the verdict of guilty was returned, all rights of the prisoner were waived and he was sentenced to death.

Early today work on a scaffold on the public square was started, and crowds began to gather long before 11 o'clock, the hour officially set for the execution. There was no demonstration on the part of those who watched the death device go up.

Kennedy was 41 years old and was

well known throughout this section of East Texas.

### O. C. STEWART, WELL KNOWN BUSINESS MAN DIED TODAY

FUNERAL SERVICES TO BE CONDUCTED AT RESIDENCE SATURDAY AT 3 P. M.

McKinney Courier Gazette.)  
 O. C. Stewart, aged 47 years and 9 months, died at his late residence 301 North College street, this morning at 10:45 following a brief illness. The deceased, however, had been in failing health for a number of years and it was for that reason that he retired from business in McKinney a year ago last January.

Funeral services will be conducted at the residence Saturday afternoon at 3 o'clock by Rev. W. D. Thompson, presiding elder of the McKinney District, Methodist, Episcopal Church, South, Rev. J. Sam Barcus, pastor of the First Methodist church and Dr. Virgil W. Wallace, pastor of the First Christian church. Burial will follow in Pecan Grove cemetery.

O. C. Stewart was born June 29,

1872 at Durango, Falls County, Texas, where he grew to young manhood. Later he went to Temple and was associated with his brother-in-law, S. W. Cheeves, a member of the Cheeves Bros. & Co. firm that owned a string of large stores in Texas. Showing good business qualifications the young man was encouraged and later he came to McKinney, this being eighteen years ago. He bought an interest in the Cheeves Bros. & Co. store in McKinney and was made manager of the business. He successfully managed this business until January a year ago at which time he sold his interest to Ed H. Pettus and retired for a much needed rest. He had rested up for a year and of recent date had just launched a new business enterprise and had under course of construction some residence property in McKinney and this work was receiving his attention until the early part of the week. He had been in bed only since Tuesday.

March 8th, 1908 he was married to Miss Annie Taylor, a daughter of the late Captain W. H. Taylor who served Collin county as treasurer for twelve years and was one of the county's best known and most highly respected citizens. And during the past few years, in the days of Mr. Stewart's declining health his devoted wife has bravely stood up and in the face of

discouraging advice as to her husband's health she has appeared to him as optimistic and cheerful as possible, even though her smiles were from behind a veil of tears and her loving words from a breaking heart. She has furnished a rare example of love and devotion to a husband.

The deceased is survived by his aged parents, Mr. and Mrs. F. D. Stewart of Durango, Texas; four sisters Mrs. S. W. Cheeves, Cameron; Mrs. C. N. Green, Cameron; Mrs. Ida Jackson, Woods, Cameron; Mrs. W. J. Durango; Frank Stewart, the youngest brother of Durango. Early in life he united with the Methodist church at Durango. He was a member of the McKinney Lodge B. P. O. Elks.

O. C. Stewart was a successful merchant. He was frank and open in all his dealings and in his statements regarding all things. He had the happy faculty of making friends in a quiet way and he was always true to every trust. His store, at the time he sold it, was the oldest dry goods store in the county and he therefore became well known all over Collin county and had many friends among the farmers and stockmen as well as here in McKinney. These many friends are deeply grieved to hear of his death and extend condolence to the heartbroken wife and other members of the family.

Can you doubt the evidence of this Cameron citizen? You can verify Cameron endorsement. Read this:

S. E. Pitts, merchant, Nolan Ave., Cameron says: "About five years ago my kidneys were giving me a lot of trouble. My back seemed to ache all the time and the muscles were sore and lame. I was sore across my kidneys and felt just played out. I picked up a paper and read about Doan's Kidney Pills and began taking them. After using about two boxes of Doan's, all those disagreeable conditions left me. I advise anyone to try Doan's Kidney Pills who has any kind of kidney complaint."

Is the time to buy stock in the Tracy-Maysfield Oil & Gas Company.

## BECAUSE

We have 3800 acres, and when this field comes in, there is going to be scores of small concerns coming who will lease 5, 10, 15 and maybe 20 acres, because prices will be so high, that will be all they can get to drill a well on. YOU FOLKS who have waited for the wells to come in, will eagerly jump at the chance to invest in these small companies, just as a drowning man jumps at a straw, when your profit will not be nearly as great as it would be to invest in our company now, who have 3800 acres and are first in the field. This is the history of Desdemona, Ranger, Burkburnett and many others.

INVESTIGATE ---- it is free to everyone. You should investigate the officials of the Oil Company in which you would invest. We will consider that you are exercising nothing more than a good business policy if you investigate our officials. You are missing a big opportunity right at hand----NOW.

## GREAT QUANTITIES OF AMMUNITION FOUND IN GERMANY

### ALLIES SEE ATTEMPT TO VIOLATE TERMS OF THE TREATY OF VERSAILLES

Paris, March 31.—The allies have not yet given the Germans permission to send troops in the Ruhr district. The French continue to insist that military occupation of the neutral zone by Germans would further endanger execution of the peace treaty, declaring that there would be no way of getting them out again except by force.

Paris, March 31.—Great quantities of arms have been discovered in Germany by the allied officers charged with supervising execution of the peace treaty, according to advices received here. Three thousand five hundred three-inch field guns have been found by the inter-allied commission in the vicinity of Berlin alone

and altogether 12,000 of these guns have thus far been discovered throughout Germany, as well as 6,000 airplanes intact.

According to the terms of the treaty of Versailles, the German army should now have only 204 three-inch guns and no airplanes whatsoever.

These discoveries and other information in possession of the French authorities have caused considerable skepticism here as for the reason given for the request of the Berling government that it be permitted to send troops into the neutral and occupied zones.

This discovery by allied officers, together with other information in possession of the French authorities is considered by the French officials to indicate that Germany is endeavoring to avoid executing the terms of the treaty.

The discovery is commented upon in connection with reports that a republic has been proclaimed in the Ruhr region. The French, it is indicated, are inclined to believe that occupation of the Ruhr district by German troops or the alleged separate government would have as an ultimate effect, if not as a direct object, delay or evasion in executing the

treaty terms.

Particular significance is attached here to the discovery of so many field guns in such a small part of Germany in view of the fact that the Germans, replying to the demands of the commission of control to which Germany's excess war material and munitions should have been delivered March 19, declared it was immaterial whether the munitions were delivered to the allies or destroyed and they were destroying them.

The allied commission had no knowledge of any such destruction, according to Premier Millerand's declaration in the chamber of deputies yesterday, a demand was made for a list of the munition destructions, but it was tardily furnished that it could not be verified before the end of the time limit.

Germany's armed forces, the peace treaty says, should be reduced to 200,000 men by April 10, and Premier Millerand pointed out that no reductions whatever had been made thus far.

It is considered impossible here that anything of note will be done in that direction in the 13 days remaining of the time limit.

Germany began delivering coal to

France under provisions of the treaty at the rate of 300,000 tons a month. The reparations commission fixed the total amount to be delivered at 10,600,000 tons on the basis of last December's production. Since that decision was reached the deliveries have fallen to 150,000 tons.

Washington, March 26.—President Wilson will send the Treaty of Versailles back to the Senate again at a favorable opportunity. This was learned today from Administration officials close to the President.

For the present the President is content to let this treaty rest without action and will take no steps to patch up a temporary peace, it was asserted.

The President holds the belief that public opinion will bring the Senate to final ratification of the treaty, and he is waiting the formulation of such opinion.

Resolutions declaring a separate peace with Germany will not get far, the President believes. He does not think Congress will be able to agree on any such resolution, and if one should be passed he will use his power of disapproval.

\* If necessary, the President is determined to allow the question of peace to go along as it is now going until after the Presidential campaign, his friends say.

## MILANO STORE IS BURGLARIZED MONDAY

BETWEEN \$500 AND \$600 WORTH  
OF MERCHANDISE STOLEN  
FROM NEWTON STORE

(Special to The Herald.)  
Milano, Texas, March 30.—J. B. Newton & Sons general merchandise store has been burglarized two nights the very same way. Sunday night, 29th and Monday night, 30th. Both times the burglar knocked out a panel of the side door and went through the aperture.

The haul on Sunday night was supposed to be small but considerable was stolen the second time. Only three pairs of shoes were actually missed yesterday morning, but this morning they miss 4 suit cases, 12 suits of Men's Clothing and a quantity of silk goods—in all \$500 or \$600 worth of goods.

No clue as to the burglars has yet been secured but the big haul of 4 cases and contents are hoped to be located and may be recovered.

## WILL MAKE YOU RICH

**Opportunity Never Passes without bringing Regrets. Will you answer the roll call of our shareholders when dividend time comes? Think for a minute what it means to you. A few hundred or a few dollars put in at the start of this great industry will pour into your treasury a steady stream of profits for a lifetime. Millionaires are going to be made in Milam County Oil. Independent fortunes will be made from Refinery Dividends.**

Pioneering Means  
Everything in the Oil  
Industry  
Come with us NOW

Capital \$250,000  
Shares \$25.00  
BIG  
DIVIDENDS

Stockholders in Refineries GET BIG DIVIDENDS WITHOUT THE USUAL RISK taken by stockholders in speculative projects. It is a sure thing. Commercial reports and statistics show that Refineries not only pay enormous dividends, but, what is more important, they are PERMANENT DIVIDEND PAYERS.

NOTE THIS. The United States Committee on Public Lands brought out the fact, as reported in the Congressional Record that on 75,000,000 barrels of oil produced in Oklahoma

NET PROFITS of \$107,800.00 were made. Of this the land owner made \$5,450,000 the broker made \$2,400,000 company made \$10,700,00 and the refinery company that bought and refined the oil made \$86,250,000.

Please note that the big profit went to the company buying and refining the oil.

The Southern Refinery at Yale, Oklahoma, paid for itself in sixty days.

The Dixie Company at San Antonio, Texas, a new company, paid the first

eight months, 165 per cent on its capital.

The Ponca City Refinery, Ponca City, Oklahoma, in four years, paid 400 per cent in dividends and sold out netting its stockholders \$2,350 for each \$100 invested.

And there are many other such examples we could cite to show the magnitude of the possibilities for rich dividends to the small as well as large investors.

Such opportunities come but few times in a lifetime. The ground

floor means everything. If you wait you can't get in. Once a company is operating there is no stock for sale and consequently no opportunity to invest.

The Longhorn Refining Company understands the refining business and knows what it will pay.

Oil is flowing from wells in Tracy. Gushers will soon be brought in if geological and structural facts may be relied upon. This crude oil must be refined. Cameron is the logical point.

Already pipe lines are being surveyed out. This will be the terminal for the wealth that is soon to pour in from that field. Millionaires are going to be made in Milam county oil. Independent fortunes are going to be made from refinery dividends.

This is the clarion call of opportunity to you.

There is a vast difference between a speculative project and an investment. This is an investment, not a speculation. Get in with opportunity's first rap.

### What This Refinery Means

The following tabulation of figures are based on a 2000 barrel daily capacity. Forty-two gallons per barrel, car load lots f. o. b. Refinery.

30 per cent gasoline, or 25,200 gallons at 18 cents per gallon equals \$4,536 daily.

15 per cent Pale Oil, or 12,600 gallons at 10½ cents per gallon, equals \$1890 daily.

20 per cent kerosene, or 16,800 gallons at 7½ cents per gallon equals \$1260 daily.

10 per cent gas-oils or 8400 gallons at 5 cents per gallon, equals \$420 daily.

20 per cent grease stock, 16,800 gallons at 16 cents per gallon, equals \$1728 daily.

Gross daily income \$9,834.

Less cost of crude oil and operating expenses.

2000 barrels crude oil at \$2.40 per barrel.....	\$4,800.00
Fuel, Labor and Water per day.....	250.00
Insurance and Depreciation.....	50.00
Overhead and Miscellaneous.....	50.00

Total Daily Expenses.....\$5,150.00

ACTUAL TOTAL NET DAILY PROFIT \$4,684.00

Counting 360 working days in a year would give our shareholders an annual profit of \$1,686,240.00.

Fifty per cent of the earnings of this company shall be paid to the shareholders of said company at least once a year. Dividends shall be paid quarterly.

### Consider These Facts---

- That this is the most profitable end of the oil business.
- That this is no speculation but an investment.
- That the demand for high grade gasoline is steadily increasing.
- That this is your first opportunity and probably the last.
- That this means a life-time income.
- That our Capital Stock is only \$250,000 which means bigger gasoline men.
- That it only takes about ninety days to construct a plant which means quick returns on your investment.
- That this plant when running at capacity should pay from 150 to 300 per cent, per year.
- That this means a big pay roll for Cameron and Milam County.
- That this will bring 100 to 150 working men here.
- That this means from 500 to 750 people.
- That this means a monthly pay roll of from \$3000 to \$6000 per month.
- That this means from \$36,000 to \$72,000 per year to the town where this refinery shall be built.
- That this means the opening and maximum development of the Tracy Oil Field, the greatest shallow oil field in the State of Texas.
- That this means an increase in the population of Cameron and Milam County from 500 to 1000 people.
- That this will cause a tremendous increase in real estate values in Cameron and Milam county.
- That this is a home company, composed of home men.
- That this will give the people of Cameron and Milam County and adjoining counties a higher grade of gasoline delivered at your door.
- That if the Oil Companies that are at present drilling in Milam county strike a large flow of gas this company will erect a Casing Head Plant in connection with the Refinery.

## INTERCHURCH MASS MEETING

According to latest information our County Mass Meeting will probably be held on Tuesday, April 13, at Cameron. Co-operation is the key word of the Movement and we are having to practice this in arranging for our meetings, for we are in a series and there will be held in the state between the 6th and the 16th of April some one hundred and twenty of these meetings.

There are at present 31 Protestant Denominations and one hundred and eighty-two different Boards or Committees that have to do with the larger work of our churches in the Movement. This is a most notable thing in view of our past church history.

Our County Mass Meeting, as it is called, will convene at 10:30, and will be an all-day conference. Time will be given between 12:30 and 3:00 for lunch and for Denominational Rallies as the churches may care to hold them. There will be a special conference for the young people of our churches between 4 and 7:30. The Conference will close with an important stereopticon lecture in which some of the finest of the Interchurch slides will be used to show the world wide opportunity and task of the combined forces of the Kingdom.

The Conference will be held by a team of four men and one woman, with probably an extra worker or two.

Mr. J. T. Kemp has been asked to lead in the work of getting the people out for the Conference and you will no doubt soon be hearing from him.

Appoint your Interchurch Committee. This to consist of, the pastor, one man and one woman from each church. This is important, and it is important that we have their names at once.

Make your plans to take in all this Conference. Look for notices in the papers next week.

## MILANO NEWS

By Chas. Howes.

Mr. W. H. Todd, an old resident of Miami county, who had resided in Gause about 25 years, but for the last 2 years in Milano, died Saturday morning after a lingering illness and was buried in Milano cemetery.

Mr. F. J. Gause has been appointed Dipping Inspector in place of R. A. Hairston, resigned. He is expected to move to Milano shortly.

Rev. Shelby of Baylor University preached at the Baptist church Sunday, the 28th inst.

Milano is getting to have a large Mexican population. They are found to be about like other people, some good and some bad.

The Odd Fellows of San Gabriel gave a big banquet last week. Several car loads of men of Cameron and from Taylor met there to assist in giving degrees to some of the candidates.

## A LEOPARD CANNOT CHANGE ITS SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crumbles into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

"It is folly," said Benjamin Franklin "to lay out money in the purchase of repentance."

This is simply another way of saying that when a wise man buys tires, he buys KELLY'S.

Mrs. Moore Was So Weak She Could Hardly Get Up—Health Restored by Tanlac

"I feel so well now that I could hardly realize the awful condition I was in before I took Tanlac," said Mrs. E. L. Moore, of 943 S. Wellington St., Memphis, Tenn.

"I had been in a rundown condition for two years," she continued, and was so weak I could hardly keep going. I had to force myself to eat, but nothing agreed with me and I got so lifeless and no account that I could hardly get up when I was sitting or lying down, or even do my housework. I suffered with splitting headaches that would almost drive me distracted.

"My appetite picked up on my first bottle of Tanlac and I am now eating three hearty meals a day, those awful headaches are gone and I am feeling fine. I have gained ten pounds and am strong enough to do all my housework with ease. Tanlac did me a world of good—more than all the other medicines I have taken put together."

## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. ## MILAM LEADING ALL COUNTIES IN TICK ERADICATION

AT TOP OF LIST AMONG QUARANTINE COUNTIES OF TEXAS

Summary of the work done in Tick Eradication in Milam County, Texas, for the week ending 27th instant:

There were over 8,000 head of cattle dipped with 11.2 per of these showing ticks. Half of the vats in the county were in operation this week and but few cattle are now in the county but what are being dipped under supervision of the county inspectors.

Advices from the head offices of the Tick Eradication work in Fort Worth state that "Milam County is leading the list of quarantined counties in this State at the present time in the systematic tick-eradication campaign. We feel that with getting this early start that results at the end of the season will be completely satisfactory to all concerned." The work is moving along satisfactorily to all concerned and with this kind of co-operation the county will go above the Federal Quarantine this fall. Nothing short of disaster can not stop it.

There are still some communities which have not their vats in operation. In view of the fact that this county will go above the quarantine it appears to us that it would be sensible thing for these few communities to get together and co-operate in the work rather than to wait until too late and then to be left under local quarantine for another year or until they clean out the tick.

Again it may be mentioned that some cattle are being moved into the county without permit. The law states plainly that cattle cannot be moved from any county into this without a permit, neither can cattle be moved from premises to premises without inspection and permit. This is all necessary if we are to eradicate ticks in the least possible time. Cattle carrying ticks cannot be moved until they are free of ticks except to and from the dipping vats.

We regret very much to state that any party violating any of the quarantine laws or the dipping laws will be prosecuted. But this is necessary in order to protect the work and be able to get through with the work this season. Each and every case will be handed the County Attorney for action. You are urged to co-operate and there facilitate the eradication of the tick from the county this season.

## WEEKLY FINANCIAL REPORT

In reviewing the export and import operations of the United States for year 1919, it is rather interesting to note that the exports of the United States show large gains to every Grand Division except North America. The falling off of our exports in this connection occurred entirely in the movement of Canada. Our exports to Europe in 1919 showed gains of 34 per cent over 1918; to Asia 57.9 per cent; to South America, 41.2 per cent, but to North America we show a decrease of over \$150,000,000 from the previous year.

A statement of the National City Bank of New York in this connection points out that a large part of Canadian purchases in 1919 were of raw materials for which there was no demand in 1919. In 1918 we exported wheat to Canada, in considerable quantities, a country that is, itself, a large producer and exporter of the grain. Such imports were, of course, for the purpose of re-export for the use of either Canadian or allied troops. This same influence naturally increased the Canadian demand during the war for quite a number of articles. If we eliminate the falling

off in the Canadian demand for munitions of war an analysis of our exports to Canada shows that there are hundreds of articles required by the Canadian domestic market, the demand for which increased in 1919.

Our exports experienced the material increase, in the case of cotton cloths, of over \$2,500,000, and in the case of unbleached cloth of nearly \$1,000,000 with similar increases in the case of all cotton goods.

Among the other classes of merchandise sent to Canada in increased volume in 1919 over the previous year were automobiles, dyestuffs, tanning material, cotton knit goods, preserved fruits, furs, sewing machines, typewriters, sole leather, boots and shoes, lard, turpentine and many classes of wearing apparel.

## FREIGHT LEAST H. C. L. EXPENSE

Director General Hines Says Rail-  
road Transportation Costs  
Are Lowest in History.

NOT CAUSE OF HIGH PRICES.

Freight Advances Compared With Rise  
in Value of Goods—Transportation  
Cheapest Thing Public Buys.  
Charges on Some Articles.

Data compiled from authoritative sources shows that railroad freight rates are the least factor in the cost of living. Although the proportion of the total cost of goods that can be charged to transportation is not known with statistical accuracy, it is estimated that the average transportation cost of things produced in this country is a very small percentage of their total cost to the consumer.

Freight Cost 2.4 Per Cent of Total.

In a letter to Representative John J. Esch, chairman of the House Committee on Interstate and Foreign Commerce, Julius Kruttschnitt, chairman of the Southern Pacific Company, points out that in the last five years the value of goods increased on an average of \$63 a ton, while freight charges advanced only 60 cents a ton.

In five years, he explains, the average value of freight carried by the railroads increased from \$56 to \$119 a ton. The cost of carrying this increased from \$2 to \$2.80, paid to the railroads. In 1914, he adds, 3.6 per cent of the total cost of the goods was spent for transportation. In 1919 only 2.4 per cent was spent.

"In other words," Mr. Kruttschnitt writes, "only 80 cents out of \$63, or 1.3 cents out of every dollar of increase in value of commodities in 1919 was caused by increased freight charges. The responsibility for the remaining \$82.20, or 98.7 cents out of every dollar, must be sought elsewhere. It was not caused by freight rates."

Rates Lowest in History.

Comparison with transportation charges in other countries shows that in no other country of the world is transportation furnished at so low a cost as in the United States. Compar-

ed, too, with the cost of other goods and services today, railroad transportation is the cheapest thing the public buys. It is sold for less than the cost of production, considering all the elements of cost.

In a statement on this subject to the New England Bankers' Association Walker D. Hines, Director General of Railroads, said:

"I think it is a fair statement that at the present time, despite the increases which have taken place in freight rates, a ton of steel or a ton of coal, a bushel of wheat or the unit of any other commodity has to pay for transportation a less percentage of the price of that commodity than ever before in the history of the country."

Charges on Some Articles.

Before the war a suit of clothing from one of the Chicago factories, selling for \$30 in a retail shop, was carried from Chicago to Los Angeles for 16½ cents. The suit of clothes now retails at \$50 or \$60, but the freight rate on that 2,265 mile haul has increased only 5½ cents, while the price of the goods has gone up \$20 or \$30.

The 22 cents does not cover all the transportation cost in a suit of clothes, the transportation charge for carrying the wool from the ranges and the cloth to the clothing manufacturer and other minor carrying costs enter into the consideration, but the final transportation charge is the principal one, and the other charges add only a few cents more.

New England shoes are shipped from Boston to Florida at a cost of less than 5-2-3 cents a pair. This is an increase of only one cent over the pre-war rate. The railroads also carry beef from Chicago to New York for a charge of about two-thirds of a cent a pound. Typewriters are carried from New York to St. Louis for 66 cents. A \$150 phonograph is carried by freight from New York to Atlanta for \$2.85. A grand piano is carried clear across the continent for \$39 and in carload lots for \$28.

These are typical freight rates, and they make it plain that American railroads give the lowest cost service in the world.

Even with a very considerable increase in rates to make the roads self-supporting, transportation will still be the cheapest thing the public buys.

Miss Elizabeth Adams, who had a serious operation last week is reported doing nicely.

Cam-Hi Entertained Thursday Morning by Musical Selection.

Last Thursday morning the Cam-Hi students were honored by hearing Mr. Pennington, a blind musician and Mr. Collins, a musician who plays on the harp-guitar, play. After playing three or four pieces of music, they thought they had ended their program, but not so, for by the applause they gained, it was necessary for them to render two more selections before the student body would be appeased.

The playing of these two gentlemen was intensely enjoyed by the students who have not had such a treat for a long time.

After this program, Miss Harriet Henderson, a former student of Cam-Hi, now attending Baylor, rendered some further musical selections which were thoroughly enjoyed.

### THE GIRLS' CLUB

The Girls' Club met Thursday afternoon in regular session. The house was called to order by the vice-president, and after the reports from all the committees had been heard two things were discussed, and one was voted on. First the club discussed the drawing up of a "code of standards" for each girl to live up to, which was afterwards voted on, and was agreed upon almost unanimously. Then the club discussed the combining of the club with the C. L. C., which matter will be voted on at the next meeting. Afterwards the club marched to the study hall and there met the C. L. C. A report from each club was made, and a committee from the Girls' Club was appointed by the vice-president to write up the code of standards. Then the clubs adjourned.

C. L. C.

The C. L. C. met Thursday after-

noon in the regular room. The house was called to order by the President Mrs. Crawford brought before the house two very important things which were discussed. First, the club discussed drawing up a "Code of Morals." Then the girls voted on this code and it was unanimously carried. After this, the club met with the Girls' Club, which has been heretofore described.

### MISS KEMP HONORED WITH LINEN SHOWER

(Rosebud)

Miss Johnnie Stallworth entertained most charmingly on Monday afternoon, naming Miss Irene Kemp, one

of the bride-elects of the week, honoree for a lovely linen shower.

Receiving with the hostess besides the fair honoree and her mother, Mrs. M. M. Kemp, were Miss Maybelle Taylor, the other bride-to-be, her guest, Miss Joe Davison of Waco, Mrs. Hal Stallworth and Miss Harriet Thomson of Durango.

The guests were given pages with pictures of appetizing dishes on same and were requested to write the recipe corresponding. These were then gathered and formed into a helpful recipe book for the bride.

A unique contest, "Cupid's Art Gallery," followed and was entered into with great merriment.

Miss Vera Warrock then eulogized the approaching Eastertide, emphasizing the joyousness of Love claiming the happy bride and she led in the search for the golden egg of happiness. In the parlor a lovely scene

greeted the searchers. Here Easter lillies were in profusion and every detail contributed to form a picture beyond description. Resting in its grassy nest on a table in the center of the room was the immense Easter egg, filled with beautiful gifts of linen, everything essential to milady's linen chest. Irene responded with sincere gratitude and her happiness was shared by everyone as they viewed the many and handsome articles. Punch and cake were then served informally, the plate favors being tiny yellow baskets of Easter candies.

Assisting the hostess were her mother, her sisters, Mesdames Watkins and Montford, Miss Helen Tuttle and Mrs. Brazelton.

It was a beautiful courtesy paid Miss Kemp, and Miss Stallworth's gracious hospitality was truly enjoyed by fifty or more guests present.

A Guest.

### THE GARDEN LADY'S STORIES

(Written for the United States School Garden Army, Bureau of Education, Department of the Interior.)

### THE PEA THAT DREAMED OF FLYING

Deep down in the warm, soft garden soil, a wee Baby Pea slept in its faded, wrinkly swaddling clothes of pale grayish gold. Down poured the soft warmth of the April sunshine. The earth grains around the sleeping plantlet seemed to quiver with joy. They had been carefully heaped over the pea by soldiers of the United States School Garden Army.

The Baby Pea was dreaming a beautiful dream of free air and blue sky and soft white wings. Where had it got that dream? We shall see by and by. It seemed in its sleep to be trying to stretch white fluffy winglets. But it was bound fast in its thick, warm swaddling clothes.

There came a stamping as of millions of little feet overhead, and a soft tinkling music shivered and quivered through the earth grains. The baby plant quivered, too. Down trickled a soft, warm rain drop. "Wake up, little baby pea!" it gurgled softly.

Then a soft, warm moisture soaked through and through the coverlet and blankets of the Baby Pea, and the little wrinkled ball began to swell and swell. The heat, the water, and the air caught in the soft mesh of the earth grains began to work on this queer blanket of the baby pea and to turn it into a very good nursing bottle for the baby! The plantlet sucked with might and main.

"Um—Um—This is good!" thought the Baby Pea.

So the little ball swelled and the plantlet stretched until the coverlet was all tight and smooth. Then the coverlet split and the thick blanket opened into parts. The Baby Pea poked out a white foot and showed between the thick halves of its split blanket two tiny, tiny white folded winglets.

The foot was a wee rootlet, and the wings were two wee, crinkly leaflets.

The Baby Pea pushed up out of its split coverlet and looked about it. It could kick off its blanket, for it was fastened tight to the thick halves just above the root.

"Mercy!" it thought, "This isn't blue, and I can't spread my wings. I'll see if I can't get out of this."

So the Baby Pea stretched and stretched and pushed and pushed. There were now three rootlets poked out of the coverlet.

"Mercy! Don't let go yet!" it said to the rootlets. And the rootlets stretched downward as the pea stretched up, and clutched with might and main. At length its head above ground.

It was now well started on its journey, but its thick blanket, which was also a food kit or canteen, too, you

remember, was still tightly fastened to it.

As the baby plant sucked away, the blanket leaves grew smaller and smaller, and dried up, and the plantlet sent downward its little voiceless cry to the rootlets below. The rootlet began to send out little hairy feelers which drew in moisture, and sent it speeding along the stem up to the baby plant.

"Ah, now, this is the real life!" said the baby plant. "Now I shall soon be grown and ready to fly." And it spread out its two little wing-like leaves proudly. They had become very pretty and green by now. But there it stayed still anchored in the earth, though the low ground wind swayed it a little bit.

And in the morning a little soldier of the United States School Garden Army came proudly into the garden and shouted with joy when she saw the little Baby Plant lifting up its green banners.

"Oh," said the little plant, "I do so want to fly."

"Come up higher," smiled the sun. "Grow some more wings" teased the wind.

"Well, I will," said the little pea bravely, and it sent out some more little green wing-like leaves. But still it couldn't fly!

"Anyway, I'll climb," said the little pea, and it stretched out its little wiry arms and delicate green fingers—tendrils the School Garden Army soldiers call them.

Then the Golden Girl came out and set up some lovely branching brush for it to climb on.

"Hurrah!" cried the pea plant. And it was so happy in climbing that it forgot all about flying for a time.

But one night it dreamed a lovely dream. A beautiful maiden, all in floaty white, passed by, and her trailing robe just brushed the plant.

"Oh, beautiful!" it cried, in its own language, which I think is perfume, and it stretched up its green fingers as if to hold her.

(To be Continued.)

### OAKDALE NEWS

By Mrs. S. Hause

Oakdale, March the 29th.—Everybody in our little woods is stirred up over OIL. They came Sunday, Monday and in fact every day they can get about to see if you will let them lease your land. Some of our men act like they were real oil men, tell you what advantage you will have, but there is some that say wait till it gets ripe. Some have gone into it head and ears.

Mr. A. W. Belt got Mr. O'Neal to take his wife to Cameron to the Sanitarium Saturday morning. We hope that the doctors will cure her. From there Mr. Belt went to Waco to see his mother, who had gone with her other son, Mr. Jesse Belt. She went to the Sanitarium there and was doing well Saturday morning. The Belts live near Prospect, but very close to Oakdale.

Mr. Elmo at Hoyte had a cream supper Friday night. All had a nice time but Hugh Wimberley after he started home and had gotten nearly there his horse got frightened and broke his buggy.

Mrs. Roy Hawbaker and her husband was shopping in Camern Saturday.

Mr. Sid Hause and wife went to Maysfield Tuesday, stopped on their way at Dave Link's and had dinner came back Wednesday. Have not gotten over the trip yet.

Mr. and Mrs. John Wilkerson went to Salem Wednesday and spent the day with her mother, Mrs. Hill.

Mr. A. L. Chatman was in Cameron Saturday after corn. Mrs. Chtman stayed at home as she had n incubator setting nd had to be with it.

Mrs. Eugene Hause and little M. P. were at Hoyte Thursday after plants to set out.

Messrs. O'Neal, Frank Fasel, T. V. Wimberley, Leonard Steward, Homan Thompson and other were attending to some kind of business in Rockdale this past week.

Mrs. Ashenbeck, and granddaughter, Miss Sophia Beckhusen, and Mr. Theo were in Cameron twice the past week.

Mr. and Mrs. Roy Hawbaker visited his brother at Temple Sunday.

Mr. and Mrs. O'Neal of Prospect, spent the evening Sunday with Mr. and Mrs. Sid Hause.

Every time you see any one around here you hear them talking oil, oil, oil. How much they will make if they get oil. Some if the women tell what kind of a dress they are going to get. Othehrs are telling where they will move to when they sell out.

Some of our men warked the road one man going near Hoyte with a bunch and one went near Milano with his bunch. They look better now.

Mrs. Enoch Fisher had her grandson and daughter from Rosebud to spend the week end with her.

Mr. and Mrs. Fikes and children of Cameron spent the day with the Williams family Sunday.

Mr. Mike Taylor and little daughter near Milano were in Cameron Saturday trading. They stopped to see if he could get a cultivator from Mr. Hause, but did not take it with him, but may come back.

Mr. Ernest Cook was in Milano Sunday night with the church people.

Mr. Erwin was in Camern Saturday trading.

Mr. Lagroon came by Cameron taking a nice bunch of goats to a pasture for Virge Woolley.

Mr. T. V. Wimberley and Frank Fasel of Prospect were seeing some if the people that had not leased their land. They did some good talking for the oil men.

Miss Bernice Nicholson of Milano was in Cameron Saturday.

Mr. J. Cheney of San Antonio and Miss Ruby Bullock of Liberty were quietly married Tuesday evening at the home of the bride's mother.

Mr. and Mrs. Oscar Crawford with their children were visiting relatives in Milano Sunday.

Mr. and Mrs. John Wilkerson went riding Sunday evening.

### SAN GABRIEL GOSSIP

By Mrs. J. S. Woody

March 30th.—Father Time is about to close the first month of spring and April Fool Day comes dawning upon us almost unawares. April, the month of flowers and showers! How beautiful are both! With those approaching, sunny days wonderful changes are made by nature.

About the landscapes and river lie the delicate green veil of early spring. The hedges are green and from the meadows are being driven the last tinge of winter's shadows, while the waters of the San Gabriel river sparkle in a joyous mood.

Gardens and corn are now coming up—but in places the stand of corn is poor. Many are replanting.

High south winds have prevailed constantly throughout the past week and twice returned with equal force from the north, especially on last Wednesday night when after a day of south March wind the blast came howling from the west bearing a fearful burden of tempest. The wall of projectiles, tearing the air, echoes of deonation pronounced it a storm-threat and even our homes appeared to be playthings of this fierce wind. A few old houses collapsed. The Christian church of our village set from its foundation and the Camp gir slightly twisted, with numbers of other minor tragedies, as results of the gale, springing up from the gloom of the midnight hour.

Seth Moseley and son, Clyde, spent the past week end in San Antonio.

Little Miss Lucile Camp spent Saturday and Sunday with her sister Miss Anna Mae, in Austin.

Rev. Roberts of Cameron filled his appointment at San Gabriel Christian Church Sunday.

Mrs. Volley Terry was buying in Thorndale Friday.

Jim Guthrie made the purchase of a Ford touring car last week.

John Woody and Henry Camp attended business in Taylor Saturday.

Mr. Arthur Scruggs and family of Thorndale, attended services here Sunday.

J. P. Reeves and family were here from Thorndale Sunday.

Mesdames Amason and Terry were shopping in Rockdale a day last week.

San Gabriel basket ball boys and Senior girls were opponents to Thorndale teams in a game Friday afternoon in Thorndale. San Gabriel was the victor.

Little Misses Regneal and Lola Mae Richardson of Houston are the happy little guests of their grandmother Richardson here this week.

Mrs. J. T. Woody was trading in Thorndale Saturday.

Mrs. Vira Camp and son, LeTeller were visitors in Thorndale Saturday.

Victor Sullivan spent last week end in the Alamo City.

Mr. and Mrs. Marvin Davis of Thorndale, were in our vicinity Sunday afternoon.

Mr. and Mrs. Will Lee were trading in Taylor Monday.

### BUCKHOLTS NEWS

By Audrey Criswell

Buckholts, Tex., March 29.—Rev. Kelly of Waco occupied the Baptist pulpit Saturday night, Sunday morning and night. Because of the bad lights at the Baptist church the services were held at the Methodist on Sunday night. Rev. Kelly will return to this church on the fourth Sunday of next month. While here he was a guest in the home of Dr. and Mrs. J. Z. Young.

Miss Mary Ellen Davis of Rogers, was here during the past week end.

Mr. W. O. Loftin has moved his family back to their farm near Friendship. Mrs. Loftin stayed in town during the winter to send the children to this school.

Mr. and Mrs. Elmer Horstmann were in Cameron Friday night to attend the movies.

One of the young sons of Mr. Penny who lives near town on the old Tom Poole place, happened to the misfortune of getting his forefinger cut off while he was cutting wood. The severed member was placed back by Dr. Young and several stitches taken. The little boy is getting along very nicely at present.

Miss Gladys Harris who attends Cameron High School was home to see her parents, Mr. and Mrs. H. H. Harris, this week.

Mrs. B. L. Guess returned to her home in Rogers Sunday after several days' visit with relatives at this place.

The beautiful bungalow home of Mr. and Mrs. E. J. Kahler is being very much improved this week as they are having another room added, also the

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c.
